NUMBER 29

GOLF CLUB SEEKS TO ENLARGE MEMBERSHIP

Levy Of Entrance Fee Upon New Members Suspended Temporarily Until May 15th

Suspension of the entrance fee of \$20 for regular members until May 15th, 1932, was decided upon by resolution at the annual general dinner-meeting of the Kelowna Golf Club, held in the Royal Anne Hotel on Thursday evening last. This means that, until that date, every one joining the Club will become a regular member, with all the privileges of regular members without being required to pay the customary entrance fee. The annual subscription fee, payable in two instalments, will be the only charge levied.

In the absence of Mr. E. M. Carruthers, President, who is in the Old Country, the chair was occupied by Mr. C. Quinn, Vice-President. Following dinner, notice of meeting was read by Mr. E. W. Barton, Secretary, followed by the minutes of the last annual meeting, which were adopted.

On behalf of the President, who had left no report, Mr. Quinn extended thanks to the ladies for serving teas during the year and to Mr. H. V. Claridge, Captain, to whose efficiency was due the success of the tournaments held. He thanked also the members of the Committee and the Secretary for capable work.

Grounds Committee Report

The report of the Grounds Committee, of which he was chairman, was then read by Mr. Quinn as follows:

"We beg to report on our grounds operations as follows:

"During low water we had the lake cleaned up, logs removed and burned, and all useless brush removed from its banks, especially on the 10th fairway, and its general appearance much improved.

"Large mats were installed at a cost of \$400.

"The greens were all remade with the help of the Vernon grounds man and in the same manner as their own, also a wonderful improvement—cost about \$300.

"We decided on economy as our policy for the year and cut our grounds expenses about \$200. In 1932 the grounds expense should be about \$400 less than 1931, provided our members are content with the grounds as they are.

"Our equipment has been maintained in good condition. Water has been laid on to No. 3 green and the approach can be grassed at very little expense. No fencing was done this year. The flag pole needs attention.

"Our staff gave us good service and Mr. Owen's assistance was much appreciated.

"We wish to draw the members' attention to this fact. Divots are not being replaced as they should be, and unless a strong fight against such carelessness is made, our fairways will never be any good.

"I wish to thank Mr. Reid and Mr. Chester Owen for their able co-operation and assistance at all times."

House And Entertainment Committee

Following adoption of this report, Mr. H. Broad, chairman of the House and Entertainment Committee, stated that he had little to report. In May, Vernon and Penticton players were entertained, and in June the Trench Trophy and McEwan Cup competition was held; in September and October members of the Penticton and Vernon clubs were again visitors. Entertainment fees had been higher than usual in 1931 owing to the increased popularity of inter-club matches, which increased expense.

Referring to the painting of the exterior of the club house, which had been considered, he understood that certain alterations to the building were to be proposed at that meeting. If any alterations were to be made, the painting could possibly be done at the same time.

Captain And Match Committee

Mr. Broad's verbal report was approved, after which the report of the Captain and Match Committee was submitted by Mr. Claridge, who said in part:

"During the season we had twelve club competitions with a total entry of 412. This, I believe, creates a record for the club as far as number of entries are concerned and, on behalf of my Committee and myself, I want to thank you all very sincerely for the hearty support you gave us.

"Inter-club matches, which were also

PRESBYTERY TO MEET HERE NEXT WEEK

Sessions Will Continue For Several Days

Rev. S. S. Osterhout, M.A., Ph.D., D.D., of Vancouver, will be the preacher at First United Church on Sunday morning next. Dr. Osterhout is Superintendent of Missions in the Province of British Columbia, is an advanced scholar and a good speaker. The minister will conduct the worship at the morning service and will take charge of the service in the evening. The subject of the evening sermon will be "Keeping Fit."

The spring sessions of the Kamloops-Okanagan Presbytery will be held in First United Church here and will continue for the greater part of the week commencing Monday afternoon next. The Presbytery consists of some sixty ministers and laymen representing churches from Golden and Field down the valley to the American boundary and west to Merritt and Princeton. It is anticipated that there will be some lively sessions in view of the conditions in the world and the problems and tasks confronting the churches. Public meetings will be held on Tuesday and Wednesday evening, commencing at 8 o'clock each evening. Brief addresses will be given on vital and timely subjects that are calculated to provoke discussion and lead to some consensus of opinion as to how the church should give leadership in the present conditions.

very well supported, were played against Vernon and Penticton—four games with Vernon but only one with Penticton as, unfortunately, after changing dates many times to suit Penticton, they finally called off another match. In these inter-club matches we were very successful, winning all games by a good margin. We also played home-and-home games with Penticton for the Horn-Latta Cup, in which we were finally successful by the small margin of four points. I wish to add that I tried to arrange games with Salmon Arm but, unfortunately, they were not in a position to have them. I would suggest to my successor to try again with Salmon Arm this year.

"The Interior Championship event was held at Revelstoke and was well attended, the winner being Mr. E. Irwin, of Kamloops, who defeated Mr. H. Meeker, of Merritt, in the final.

"The Trench Trophy and McEwan Cup competition on June 3rd had an entry of sixty-one players, twenty-nine of our members and thirty-two from other clubs. The Trench Trophy was won by Mr. H. Pearn, of Vernon, and the McEwan Cup was won by Mr. McGladdery, of our club. The Commercial tournament was held at Penticton, and the open cup was won by Mr. H. Nicholl, of Penticton, who defeated Mr. D. Currell in the final.

"We wish to congratulate the Grounds Committee on the excellent condition of the course and greens, particularly the latter since being remade, and also on retaining Mr. H. Owen as professional, who, I think you will all admit, has been a great acquisition to the club. I also wish to personally thank our Secretary, Mr. Barton, also Mr. Currell and Mr. Weddell, the Match Committee; for the willing assistance they gave me during the past season, and special thanks are due to the ladies for the splendid support they gave to mixed competitions.

"Before closing this report we have one suggestion to make, and that is to have a large notice board made in form of an easel which can be carried out in fine weather to the first tee and placed on the club house verandah at night, and that all notices be placed on that board so that members cannot fail to see them."

Deficit In Operating Account

After the report was adopted, the financial statement was introduced and taken as read.

This year, for the first time, said Mr. Barton, the club showed a deficit of \$702.66 in operating account, depreciation in book accounts being largely responsible. The incoming Committee should consider reducing the depreciation on the fence and well account from ten per cent to five per cent, which would make a difference of about \$40. A reduction was shown in subscriptions and green fees, and he was of the opinion that entrance fees for club competitions might be increased.

Referring to expenditures, he said that Mr. Owen, the professional, had been engaged from the middle of March to November and entertainment costs were higher than formerly. The grounds expense, however, including

BRILLIANT PLAY IN BADMINTON TOURNAMENT

Kelowna Competitors Reach Finals Of All Open Events To Be Played This Afternoon

The Central British Columbia Badminton Championships, play in which opened here on Tuesday, will finish today. The finals are being played off this afternoon, and the tournament will be brought to a fitting conclusion by a dance in the Royal Anne Hotel this evening.

In spite of hard times, this tournament has attracted players from all parts of the province and the reputation for a high standard of play has been well maintained. Visiting players include George Sparling, of Vancouver; Miss Morley, of Victoria; Vancouver Island champion; Miss Norie, of Duncan, runner-up in the provincial mixed doubles event; Messrs. J. V. Saunders and R. Taylor, of Nelson; Mrs. Roadhouse, Miss B. Beattie, Misses J. Bernard and N. Bernard, Messrs. L. Roadhouse, C. Holden and Crane, of Penticton; R. Howell, of Vernon; the Misses Paynter and Messrs. H. O. Paynter and J. Paynter, of Westbank.

No fewer than two hundred and thirty entries were received in all, and from the play it is evident that the honours in the finals will be well distributed between local and visiting players. Kelowna finalists battling for premier honours in the open events this afternoon include Misses M. Taylor and J. Pease, A. E. Hill, Jim Logie and Norman DeHart, and these leading local exponents of the game will be worth watching today.

A good crowd of spectators assembled in the Badminton Hall last night to watch the semi-final events, and a larger crowd is expected this afternoon.

In the final of the Men's Singles event, Hill and Sparling will clash for supremacy.

In the Ladies Singles, Miss Morley and Miss Taylor are the finalists. Norm DeHart and Jim Logie meet Saunders and Taylor, of Nelson, in the Men's Doubles event.

Miss Morley and Miss Norie meet Miss Taylor and Miss Pease in the Ladies Doubles.

In the Mixed Doubles event, Mr. and Mrs. Roadhouse are playing Logie and Miss Taylor.

the greens, was less. Glenmore water cost \$100 as against \$50 in the previous year.

One or two questions were asked the Secretary, after which adoption of the financial statement was moved and carried.

Election Of Officers

The next business on the agenda was election of officers. The Secretary announced that the only nomination for the office of President was that of Mr. C. Quinn, moved by Messrs. C. R. Reid and Chester Owen.

Mr. Quinn, who was declared elected amid applause, appreciated the honour. He would carry on to the best of his ability and as economically as possible, he said. Referring to the alarming drop in subscriptions during the past four or five years, he declared that their objective must be to get more members. That should be kept in mind when the resolution contained in the notice of meeting was brought up for consideration.

For Vice-President, Mr. Broad was the only nominee, moved by Messrs. J. Hunt and Geo. Meikle. He was declared elected and extended thanks for the honour.

Ten having been nominated for the committee of five to be elected, Capt. Hayman and Mr. Fred Royle were appointed as scrutineers to count the ballots in the vote taken. Nominees were: Messrs. W. R. Carruthers, H. V. Claridge, J. Hunt, V. D. Lewis, C. Owen, C. R. Reid, W. R. Trench, C. Walker, A. D. Weddell and H. A. Willis. Messrs. Claridge, Weddell, Hunt, Owen and Reid were declared elected.

Mr. H. K. Todd, who had been nominated by Messrs. Claridge and Owen, was elected Captain for 1932.

Mr. D. Currell was re-elected Auditor for the ensuing year.

Winners Of Competitions

Results of the club competitions held during 1931 were read by the Secretary as follows:

Knox-Campbell Cup, emblematic of the club championship: C. Owen. (Mr. Owen, who has won the cup three years in succession, made a few remarks in response to demands for a speech.)

Barnes Cup: C. Owen and V. D. Lewis.

Howell Cup: A. McKay.

Mixed Foursome: Mr. and Mrs. Quinn.

McEwan Cup: S. McGladdery.

Binger Cup (Juniors): R. Benmore.

Rees Cup: J. Benmore.

Winners of the ladies events were given as follows:

Sterling Salver: Mrs. Shepherd.

ROWING CLUB PREPARES FOR ACTIVE SEASON

Enthusiastic General Meeting Augurs Well For Successful Year

On February 17th, the Board of Trade Room was the scene of a well attended, enthusiastic general meeting of the Kelowna Rowing Club, some sixty being present.

The President of the past year, Mr. P. V. Tempest, gave the members an inspiring address, in which he briefly recorded the varied activities of the Club during his tenure of office. In a few well chosen words he impressed upon his audience the debt the Rowing Club owed its parent organization, the Kelowna Aquatic Association, and he urged them to give their wholehearted support to the Aquatic by encouraging their parents and friends to join and, when they finally gave up rowing themselves, to continue as members of the Kelowna Aquatic Association and take a keen interest in its activities in order that those who followed after might enjoy the privileges and opportunities which the foresight of an older generation had made possible for them.

The Captain of Boats, D. F. Poole, then addressed the meeting, giving a resume of the racing, rowing activities of the Club, its equipment, the immediate requirements for the coming season, and briefly outlining a new plan for the organization of the crews during the first weeks of the season.

Miss Brenda Carruthers, Captain of Boats for the ladies, was the next speaker, and in a brief but lucid address she touched on the social activities of the Club and recalled the ladies' victories in Vancouver and Kelowna.

The financial statement, showing a credit balance of \$13.28 and all accounts paid, was then submitted by the Secretary, Mr. W. R. Carruthers, who reviewed the expenses and receipts of the past season. Information that the new boat house was to be started immediately by the Kelowna Aquatic Association was received with great enthusiasm by the meeting and the news that, if at all possible, the Coach would be employed from the first of May was greatly appreciated.

The election of officers for the coming year was then proceeded with, and Mr. Kenneth MacLaren was once more unanimously elected as Honorary President. The Honorary Vice-Presidents were Dr. J. E. Wright and Messrs. W. Lloyd-Jones and Monty Fraser. Mr. Nelles Stacey, of Vancouver, was unanimously elected Commodore and the following were elected for the various positions: President, W. R. Carruthers; Vice-President, F. J. Foot; Secretary, Gordon Meikle; Captain of Boats, men, D. F. Poole; Captain of Boats, ladies, E. Conway; Directors: Brenda Carruthers, Ned Wright, Roy Hunt.

In view of the erection of the Boat and Club House, C. A. Pettman and Audrey Hughes were elected on the House Committee, the chairman to be appointed by the Directors from one of their own number.

It was decided to hold the annual Rowing Club dance in the Royal Anne on March 17th, St. Patrick's Night. The meeting then adjourned.

DONATIONS TO RELIEF ASSOCIATION

The Kelowna Volunteer Relief Association desire to acknowledge with thanks receipt of the following donations:

Staff of the Kelowna schools.....\$117.90

Proceeds of "A Nicht wi' Burns" 157.18

A Friend.....2.00

Also shirts and garments from the Catholic Women's League, men's socks from a friend, and various other gifts of clothing.

COAL MINERS RECEIVE MEDALS FOR BRAVERY

LONDON, Feb. 25.—Nineteen sturdy miners from Durham were decorated by the King today with the King Edward Medal for bravery. The investiture was held in the Throne Room of Buckingham Palace, where His Majesty received the miners in private. The medals were awarded to them for rescuing their lives when a cave-in occurred at the Hedley mine in order to rescue a fellow miner who was buried under a heap of stone. They worked for nine hours under most dangerous conditions, and immediately after they had rescued their comrade the tunnel in which they had been working collapsed.

McTavish Cup: Mrs. Bryce.
Brewster Cup: Mrs. Bryce.
Yale Cup: Mrs. Proctor.
Hunt Cup: Mrs. H. V. Craig.
Collett Cup: Mrs. Bryce.

INTEREST RISES ON BANK LOAN TO CITY

Bank Of Montreal Intimates Rate Will Be Six And One-Half Per Cent Instead Of Six

There was a full attendance of the City Council at the regular session on Monday night.

Intimation having been received from the Bank of Montreal that, in view of the present value of money and the rates charged to municipalities similar to Kelowna, the rate of interest upon the customary temporary loan against current revenue would be 6½ per cent this year instead of 6 per cent as heretofore, remonstrance had been made by the Council, the sound financial position of the City being pointed out as a good reason for continuing the rate of interest formerly in effect. A reply from the Bank stated in part:

"We regret for the time being it is impossible to reconsider our decision to increase the rate of interest from 6 per cent to 6½ per cent.

"We are sure the Council will not consider our rate unreasonable when comparing it to the rates that the Province of British Columbia and other provinces and municipalities are having to pay to borrow money on their bond issues at the present time.

"We are aware of the sound financial position of the City and appreciate our past relations. We trust it will not be long before improved conditions will warrant revision of the rate of interest."

During discussion of the matter, the suggestion was put forward that the Council might offer an inducement to ratepayers to make their tax payments at an early date by allowing six per cent interest on all monies paid in up to the date when the penalty is added for non-payment. No definite action was taken on the proposal, although it met with considerable favour, and ultimately it was agreed to follow the course suggested by Ald. McDonald, chairman of the Finance Committee, that the matter be left with the Mayor and City Clerk to take up at the forthcoming special convention of the Union of B. C. Municipalities, and that the Bank of Montreal be so advised.

Addition To Aquatic Premises

Mr. W. R. Carruthers submitted for inspection by the Council a rough plan of a proposed boathouse to be added to the premises of the Aquatic Association, at the east end of the present pavilion. It will be of the same type of construction as the pavilion, two stories in height, the lower portion being devoted to storage of the boats of the Kelowna Rowing Club. It will be joined on the level of the top floor only to the main building, the upper story furnishing additional club accommodation. The size will be 50 by 30 feet.

The plan was acceptable to the Council, but Mr. Carruthers was advised that, under the revised terms of the new lease, it was not necessary to obtain anything more than the usual building permit in the nature of civic approval.

Seventh Day Adventists Will Again Meet Here

A letter from Mr. H. A. Lukens, of Vancouver, President of the B. C. Conference of Seventh Day Adventists, expressed appreciation of the hospitality extended by the City in past years in granting use of the City Park for the purpose of holding the annual convention of that body, and asked that the privilege again be bestowed of holding the gathering in the Park this year from July 14th to 18th.

The application was granted, on motion, Ald. McKay, who was chairman of the Parks and Boulevards Committee last year, stating that the Park was left in a very clean and satisfactory condition after the convention last year.

Delegates To Municipal Convention

Mayor Gordon and City Clerk Dunn were appointed as delegates to attend the special convention of the Union of B. C. Municipalities, to be held at Victoria on February 29th and March 1st.

Store Windows To Be Lighted On Sunday Evenings

For the information of the Council, a letter from the Board of Trade, addressed to the Board of Police Commissioners, was read. It requested that the policeman on night duty be instructed to turn off the store window lights at 10 o'clock each night, and that the said lights be turned on by him on Sunday.

SALVATION ARMY REVIVAL SERVICES

Brigadier Geo. Smith Is Holding Special Campaign

(Contributed)

Brigadier Geo. Smith arrived in Kelowna on Tuesday by the s.s. "Sicamous" and conducted that evening the first meeting of a week's special revival services at the Salvation Army Hall. The Brigadier took for his text the words of St. Paul in II Corinthians, 6:11: "We then as workers together with Him." He stressed the need of cooperation among the people of God in the work of extending His Kingdom.

On Wednesday, at 4:00 p.m., the Brigadier gave an illustrated lecture, entitled "Little Nell," to the school children. At night his subject was "Two Pictures."

Tonight, the local Corps will extend a welcome to Lieut.-Col. Walter Peacock, Field Secretary for the Salvation Army in Canada West.

Brigadier Smith will continue his revival meeting every night this week and all day Sunday. Friday night, his subject will be "The Voyage of Life;" Saturday night, "Thank You;" Sunday morning, "The Power of Influence;" Sunday night, "The Second Coming of Christ." Congregational singing from the Army's new song book will be a special feature of these services.

KELOWNA WINS FROM WENATCHEE IN OVERTIME

Second Closely Contested Basketball Game Delighted Spectators

In the second fast and exciting game played here this week before another large crowd, Wenatchee, Y.M.C.A. basketballers last night again suffered defeat at the hands of the Kelowna Senior B boys, but only after five minutes of overtime play, when the locals scored a basket to settle the argument for the evening. The final score was 33-31.

Running neck-and-neck in the last quarter (the American plan of division being adopted in the last half), scores were tied at the final gun, each team having thirty-one points to its credit. After a brief rest period, play was resumed for five minutes and H. Johnston secured the deciding counter.

Dick Parkinson again refereed. The Wenatchee team, playing at Kamloops on Tuesday night, had little difficulty in winning from the Hub City aggregation.

SNOWSLIDE KILLS RAILWAY WORKER

VANCOUVER, Feb. 25.—Snow-slides in the Rockies yesterday claimed one life and delayed all trains during the night.

At Blue River, Joe Kesler, C.N.R. worker engaged with a gang in clearing a slide, was killed when another slide came down.

A slide 150 feet long carried away twelve telegraph poles near Revelstoke. C.P.R. trains were delayed five hours.

DOUKHOBORS NOW RESORT TO SHOOTING TEACHERS

SASKATOON, Feb. 25.—Olga Wasley, 21, teacher in the Doukhobor school at Blaine Lake, was shot twice last night and seriously wounded by a gun pushed through the window of the school, where she was sleeping, and Pete Dwenko, 18, Doukhobor, is under arrest on a charge of attempted murder. The shooting, following the destruction by fire of a number of Doukhobor schools, has created intense excitement throughout the district.

AMERICAN PRAISE FOR CANADIAN BANKING SYSTEM

WASHINGTON, Feb. 25.—Comptroller of Currency John W. Pole, in a report to a Congressional Committee, states that the Canadian banking system far surpasses that of the United States. While the latter had 2,290 failures in 1931, there has not been a failure of a bank in Canada since 1923.

PRAIRIE FARMERETTES WANT NO PRIVILEGES

SASKATOON, Feb. 25.—Women members of the United Farmers of Saskatchewan in convention here today turned down a move to cut their annual fee to \$2.00, insisting that it remain at the same figure as for men, namely, \$5.00.

VANDALS CUT UP PRICELESS TAPESTRY

JERUSALEM, Feb. 25.—Vandals have slashed priceless tapestry in the Grotto of the Nativity at Bethlehem, and the act has raised a furore in the various religious communities living in the little village of sacred memories. The Franciscan monks who live beside this spot, which tradition says holds the manger in which the Christ child was cradled, have addressed a strong protest to the government.

CHINESE LAUNCH STRONG COUNTER-ATTACK

SHANGHAI, Feb. 25.—Hammered all day by a terrific Japanese bombardment, the Chinese army in the Kiangwan sector swarmed out of their trenches tonight, launching a surprising counter-attack and winning back nearly all the ground lost during the day.

APPLE DEMAND MAY CATCH UP WITH SUPPLY

District Horticulturist Predicts Roseate Future For Fruit Industry If Preference Comes

If, as a result of the Imperial Economic Conference at Ottawa this summer, preference on Canadian apples in the Old Country becomes an established fact, British Columbia may find it difficult to supply apples in sufficient quantity to meet the demands of export markets. Therefore, it becomes the duty of the Okanagan grower to lend increasing effort to his cultural practices—to do all in his power to increase production in the hope of obtaining British preference for his product.

"If you get concessions," warned Mr. Maurice S. Middleton, District Horticulturist, of Vernon, in an address to fruit growers in the I.O.O.F. Temple on Thursday afternoon last, "and then fail to fill the demand for fruit, you are not playing the game. We must assure the British market that we can fulfill our part of the bargain if protection is given. Unless we can show that we can supply the demand at a reasonable price, we won't be doing our part. It remains with the growers too, through their organizations and with the help of the Canadian Horticultural Council, to do all in their power to have apples included in the list of preferred products."

In concluding his address, he again urged orchardists to study cultural practices if they would increase production. In this connection, Dr. Ray Neidig, field crop expert of the Consolidated Mining & Smelting Company, of Trail, who followed Mr. Middleton, had some useful advice to offer on methods of fertilization. His address was supplemented by a number of excellent slides with which he illustrated convincingly the benefits to be derived from the intelligent use of fertilizer.

In opening the meeting, Mr. C. E. Atkin, chairman, stated that an explanation or apology was due because of the way in which the meeting had been announced. It had been arranged too late to publish a notice in the paper, consequently it had been broadcasted over the local radio station. The time announced was 2 p.m., but should have been 2:30 p.m. The meeting was called to hear Dr. Neidig and Mr. Middleton, and the latter would repeat his lecture delivered to the B.C.F.G.A. convention in Vernon in January.

Rising to speak first, Mr. Middleton remarked that he had been accused of giving an optimistic address at Vernon, and an optimistic address seemed to be out of place these days.

Province Has 22,000 Acres In Fruit

With the aid of a chart placed in a conspicuous position on the platform, Mr. Middleton plunged into his subject by quoting facts and figures relating to apple production in British Columbia. It was not generally known, he said, that we had in the province 22,000 acres in fruit—with sixty-six per cent of the apple acreage bearing. Our production, about 4,000,000 boxes, represented forty per cent of the production in Canada or forty-eight per cent of the value of Canada's total crop. Growers and business men, he said, did not always realize the value and importance of our crop, which provided good reason for optimism.

Elimination Of Undesirable Varieties

Five years ago a variety campaign was instituted because there were so many varieties being grown that did not meet the demands of the market, and the object of the campaign was to eliminate the undesirable sorts as the Okanagan Valley as a whole had to be considered from a marketing standpoint. During the campaign, shippers, business men and growers were asked to sit with members of the government to go over the whole ground, and the finding of this committee was eventually published in pamphlet form. This provided a plan to work on, but it was realized that a long time was required—in some cases, nearly twenty years—to determine what certain varieties would do in certain sections. In one section, it was found that one hundred and thirty-two varieties were grown. It was impossible and uneconomical to try to sell half of those varieties, so they were finally reduced to five.

Referring first to the trend of the different varieties as shown by the chart, he made comparisons based on surveys taken in 1920, 1925 and 1930. Production of the McIntosh Red, it was shown, had almost doubled in the last

FRESH BEEF IS TOUGH

However well finished a beef animal may be, unless the dressed carcass is allowed to hang for a while it will be tough and stringy. When beef is dressed it is always allowed to hang in a cooler, preferably at a temperature of 30 degrees to 35 degrees Fahr., in a dry atmosphere. In such cold dry air it ripens and sweetens and may safely be held for a long time, whereas in a

warm moist atmosphere it will become sticky and sour. Light or very lean carcasses are not suitable for ageing, while beef well marbled and covered with fat, as is the case with all officially branded beef, is well suited to proper ageing, ensuring a maximum of sweet, tender succulence and flavour. Such beef is usually "hung" from two weeks to a month or more, and when put on the block for cutting is in the acme of prime condition.—Federal Beef Grading Service.

BOYSCOUT COLUMN

1st Kelowna Troop
Troop First! Self Last!

Edited by S.M.

Feb. 23rd, 1932.

Orders for the week ending Thursday, March 3rd, 1932:

Duties: Orderly patrol for the week, Wolves; next for duty, Eagles.

Rallies: The Troop will rally at the Scout Hall on Monday, the 29th inst., at 7.15 p.m. There will be the usual basketball practice on the Friday evening previous.

The past week-end has been a very busy one in scouting circles. The visit from Commissioner Solway has been a very enjoyable one as well as instructive. Mr. Solway held a short training course in the Hall on Thursday, Friday and Saturday evenings, his lectures covering the aims and organization of the movement as well as instruction in the primary tests and games. These lectures were attended by the following: D/C. Weddell, S.Ms. Gray and Laidlaw, A.S.Ms. Chaxton, Bond, Ritchie and Williams, Acting C.M. Lyons and R.L. Alister Cameron. Several of the local Rovers attended part of the course. After the sessions on Friday evening Mr. Solway addressed the Rovers on the aims of Rovering and its development as a world-wide brotherhood. Five Vernon Scouts were in attendance at the meeting on Saturday evening, after which a short conference was held. Our never-failing Ladies Auxiliary were, as usual, responsible for the delightful refreshments that were served before the Vernon leaders left for home.

Sunday's activities were of a different nature and, although no parade was called, all Scouts and leaders were asked to attend the service in the Anglican Church that evening. Mr. Solway addressed the congregation on this occasion on the aims of our brotherhood and pointed out to them its relationship as regards the home, the church and the schools. He touched also on the history of our wonderful Chief, Lord Baden-Powell, whose seventy-fifth birthday was being celebrated on the 22nd.

Nineteen members of the Troop as well as Mr. Solway, D/C. Weddell, R.L. Cameron, the S.M. and A.S.M. Williams were the guests of the Rutland Troop at a magnificent banquet followed by a short indoor track meet. Unfortunately we have not room in this column tonight to give the details of this gathering which was held to celebrate the birthday of the Chief Scout of all the world. However, we do wish to express our thanks to Messrs. D. Chapman, T. Treadgold and Peter Lloyd for providing transportation.

February 22nd is the red letter day in scouting throughout the world, being the anniversary, as we have already mentioned, of the birthday of our Chief. The event would be celebrated by Scouts the world over, who join in praying that their noble leader will be spared to see many more years of "Good Camping."

Here are a few interesting facts about the Chief Scout, which should help those starting in our movement to become familiar with his history: Lieut.-General Lord Baden-Powell, of Gilwell, G.C.M.G., G.C.V.O., K.C.B., etc., born in London, 22nd February, 1857.

His father, an Oxford Professor, Fellow of Royal Society, an educational reformer, author of many theological works, a clergyman well known for versatility of talent, broad original outlook and generous disposition.

His mother, daughter of Admiral W. H. Smyth, was a strong believer in possibilities of Scouting from the first. With Miss Shirreff and Mrs. Grey, was pioneer in High School education for girls.

"B/P" displayed energy, ambidexterity and versatility from early age. (wrote an illustrated treatise on animals at age of six.) Ruskin found him at early age drawing with right and left hands alternately and advised his mother to let him continue practice. Story told of him in India found scene-painting with brush in each hand and one on foot.

With family of brothers early learnt campercraft, woodcraft, boat-sailing, games, etc.

Won scholarship both for Charterhouse and Fettes; went to former, did well in studies and kept goal for School XI.

While awaiting entrance to Oxford University tried luck in Army exam. Did so well that he was offered direct Cavalry commission. Joined 13th Hussars and posted India (1876). Afghanistan, 1880. Made a reputation for himself as a soldier, sportsman, particularly in pig-sticking and polo, artist and dramatic "producer."

Accompanied his regiment to Natal in 1884 and home in 1885.

Returned to South Africa in 1887 and served in Zulu War as a Staff Officer. The beads of Dinuzulu's necklace which he brought back with him now used for

WIDOW AND DAUGHTER OF ENGLISH NOVELIST

Mrs. Edgar Wallace, widow of the famous English novelist, is shown here with her youngest child, Penelope, aged eight. Three other children survive the writer who produced novels and plays at a speed that amazed the literary world. Mrs. Wallace was on board ship speeding to her husband's bedside when news of his death reached her.

SEA CADETS

Kelowna Corps 1358
"Grenville"

Well, boys, the tests are coming along now. Cadet Newton has passed his helmwork with 84 per cent, Cadet Watt his compass with approximately 85 per cent, and three probationers passed the preliminary compass test this week. Cadet Newton has also got his first G.C. badge. This cadet's attendance for the past year has been 100 per cent and conduct V.G.I., so let's see a few more follow this example.

Mr. Putnam is taking our buglers in hand, so we may have a small bugle band in the near future. A few unfortunate ones had physical drill this week under Mr. Rattigan but the majority had to be excused on account of vaccination. Several different seamanship classes were carried on this week with a view to more tests being passed.

Don't forget to boost for the card drive and dance next Thursday night, will you? We want a good crowd to turn up.

Notes and news seem scarce this week, so will pipe down till next week.
OLD FLATFOOT.

D.C.C.'s badges and replicas for Wood Badge.

Ashanti Expedition, 1896, where he commanded native levies, whom he trained in pioneering.

Matabeleland Expedition, 1896. References to his experiences there and in Ashanti in "Scouting for Boys."

Boer War, 1899, and defence of Mafeking, where he organized the boys of the town and made his first experiment in training boys. About this time he published "Aids to Scouting," which was the result of his experience in training his men on what we should now call "Scout lines."

Writing of Mafeking boys, he says: "The experience taught one that if their training were made to appeal to them, boys would learn readily, and also that boys were capable of taking responsibility to a far greater degree than was generally believed, if only they were trusted."

Returning from South Africa, 1903, he found "Aids to Scouting" being used for training boys; he therefore set to work on "Scouting for Boys," published 1908, after experimental camp at Brownsea Island, 1907.

In 1910 he retired from Army to give whole time to Scouting.

In 1912 he married Miss Olive Soames, this being described, not without reason, as his "greatest stroke of genius." That this is a just statement may be judged by the fact that Lady Baden-Powell has won, through sheer force of her own charming personality, the position of "Chief Guide."

His being raised to the peerage at the World Jamboree of 1929 was acclaimed with joy by millions of boys throughout the world. That he should take his title from the place which is, in a very real sense, the focus of Scouting, as he is its head and inspiration, is only right and proper.

"My husband gives me all he can afford," said the sweet young thing. "The brute!" snarled the More Experienced One, "why don't you run away from him?"

LOVABLE BUNKO MAN ON SCREEN

"Get-Rich-Quick Wallingford" Aibly
Impersonated By William Haines

In "New Adventures of Get-Rich-Quick Wallingford," which will entertain at the Empress Theatre on Friday and Saturday, William Haines is cast in a type of role that is new to him, the role of J. Rufus Wallingford, well-loved, happy-go-lucky fiction character invented by George Randolph Chester for the stories which ran so successfully in Cosmopolitan Magazine.

As the nimble-witted, wisecracking hero, Haines is said to have a part admirably suited to both his comic and romantic talents. With Leila Hyams supplying the heart interest, which turns the good bad man into a good good man, there is plenty of dramatic action in this story of a bunco artist who finds that honest business supplies just as good an outlet for his tricky art. Ernest Torrence is one of the leading supporting players.

"The Yellow Ticket"

The cast of "The Yellow Ticket," which comes to the theatre on Monday and Tuesday, to some degree resembles a page from Burke's Peerage. Elissa Landi, who portrays the stellar role, is a scion of royalty, her mother being the Countess Zenardi-Landi of Austria. Another descendant of royalty is Rita LaRoy, who plays an important role in the dramatic photoplay. She is said to be the daughter of a member of the royal family of England. And to go on, Lionel Barrymore, who enacts the leading male role, is a member of the royal family of Broadway.

The picture tells the gripping story of a beautiful girl and a handsome young newspaper correspondent who match their wits with the secret police of Czarist Russia, and who, by courage born of their love, overcome the evil forces that menace and threaten to crush them.

"Sooky"

"Sooky," Paramount's companion piece to "Skipper," featuring Jackie Cooper and Robert Coogan, juvenile performers, will play on Wednesday and Thursday.

NEW BISHOP OF ONTARIO

Rt. Rev. John Lyons, of Prescott, Ont., who has been elected Anglican Bishop of Ontario, in succession to Rt. Rev. C. A. Seager, now Bishop of Huron.

1ST RUTLAND TROOP

"Do A Good Turn Daily"

The visit of the Kelowna Troop and the banquet in honour of "B.P.'s" seventy-fifth birthday came off as planned on Monday evening, February 22nd. A full account will no doubt appear in the Rutland column. We wish to thank the mothers of the Scouts for their generous supply of good things to eat. The Beaver Patrol made a good job of setting the tables, with P.L. Len McLeod in charge. The Scouts found the task of waiting of table more strenuous than they thought it would be, sadly interfering with one's own chance of participating in the feast! They did good work, however, under P.L. Andy Duncan, and deserve plenty of credit. The Kangaroos got off the lightest with responsibility for the toasts only, the P.L. James Mugford, acting as toastmaster, Second W. Hardie and Scout Gibson proposing toasts, the rest of the patrol having nothing on their minds to prevent attention to the principal job on hand. The Eagles—they had the real job of all! Washing up the dishes and cleaning up the mess was no snap. We don't think they will elect to be the "mopping up" party for the next one! All's well that ends well, however, and we hope to repeat the affair another year. Results of the re-lays and the basketball were evenly balanced, the standing being a tie. We hope to have Commissioner Solway with us again before long, also District Commissioner Weddell.

Our next big job is the annual concert. The plays are here and for the next month we must get down to steady practising.

A. W. GRAY, Scoutmaster.

BOOKLET DESCRIBES TOUR OF PROVINCE

Attractive Pamphlet Issued By Office
Of Agent-General In London

An attractively printed booklet of twenty pages has been issued by the Office of the Agent-General for British Columbia in London, descriptive of the inspectional tour of the province which is being sponsored by the Provincial Government. It sketches the journey from East to West across Canada, the matter being illustrated with seventeen half-page and four smaller half-tones, and the itinerary throughout the province is described in more detail.

It is not yet definitely known how many will be in the party, which will have as leader and guide Mr. W. A. McAdam, Secretary to the Agent-General, but it is expected to number about fifty.

The schedule sets Saturday, June 18, as the date of arrival of the tourists in Kelowna, reaching here at 9.45 a.m. from the south by the s.s. "Sicamous." The Eldorado Arms will be made headquarters for the day, but entertainment will also be provided elsewhere for the party, which will leave Kelowna at 9.00 a.m. on Sunday by motor car for Vernon.

The tour is being devised particularly to provide an opportunity for prospective settlers of some means to view the province and decide whether it offers sufficient attractions to them for a new home. By organization of a party, concessions in fares by sea and rail and in hotel accommodations are secured, enabling the cost to be placed at a considerably lower figure than the regular rates. In the event of any member of the party desiring to remain permanently in the province or to extend his visit beyond the limits of the tour, which will occupy about fifty days in all for the round trip from Liverpool, arrangements can be made to secure a refund of the unused portion of the ticket or an extension of time for return.

The route to be followed will include Liverpool, Montreal, Toronto, Niagara Falls, Owen Sound, Sault Ste. Marie, Fort William, Winnipeg, Regina, Calgary, Banff, Lake Louise, Golden, Lake Windermere, Nelson, Enderbury, Kelowna, Vernon, Salmon Arm, Vancouver, Victoria, Duncan, Qualicum Beach, Nanaimo, Vancouver, steamer to Prince Rupert, Jasper National Park, thence east to Montreal and Liverpool.

FUR FARMING GROWS

Latest figures available show 544 fur farms in British Columbia. This is an increase of 165 since 1929. These farms contain approximately 60,000 animals, of which about 50,000 are muskrats. Foxes number over 4,000, and there are about 3,300 mink. Mink raising has shown the greatest progress within the past year or two, the number of farms having risen from 118 to 190, and the animals on them have almost doubled in number. There are rather over 180 fox farms, the balance being distributed in smaller quantities among marten, muskrats, beaver, fisher and raccoons.

Creamed Soups!

Creamed Celery, Onion, Tomato, Asparagus and many other creamed soups, together with over 100 other delightful recipes are described in our new FREE cook book, "The Good Provider." It describes how flavor is increased and how countless dishes can be made with—

APPLE DEMANDS MAY CATCH UP WITH SUPPLY

(Continued from Page 1)

ten years, while the Jonathan, which was overplanted in 1920, had been reduced by about half. The Delicious had more than doubled in plantings in the past decade, the Wealthy had practically stood still, while the Newtown had gone ahead. Winesap had more than doubled, crabs had gone down about half, Rome Beauty had three times the plantings than in 1920, Duchess had gone down a third and the odd varieties had been reduced considerably.

Dealing with the Kelowna section alone, which was one of the largest districts in the valley, Mr. Middleton pointed out that McIntosh plantings had almost doubled, Jonathans had fallen off about half, Delicious had increased, the Wealthy remained stationary. The Rome Beauty had extended, Winesaps were at a standstill, Duchess were up, crabs down by half. Undesirable varieties had been cut down greatly.

Some comparative figures of plantings and production in British Columbia were given as follows (the percentage of plantings is given first, followed by the production figure): McIntosh Red, 23, 22; Jonathan, 14, 13; Delicious, 13, 7, 6, 8; Wealthy, 8, 8, 2; Newtown, 6, 3, 6, 4; Duchess, 1, 8, 1, 3; miscellaneous, 19, 20. There were too many of the latter, in Mr. Middleton's opinion.

Some of the figures given for the Kelowna district follows: McIntosh, 32, 35; Jonathan, 15, 20.5; Delicious, 13, 7.6; Wealthy, 6, 4; odd varieties, 14,

18. Twenty-eight per cent of the apples grown in the province were grown in the Kelowna district, said the horticulturist, and a good percentage of other fruits as well.

Production by varieties, based on an average of four years, gave Kelowna five and a half boxes of McIntosh to the tree, Jonathan, four and a half, Wealthy, three and a half, Duchess, three, and crabs, six and a half, or an average of four boxes to the tree. Taking the valley as a whole, the production amounted to 4.6 boxes per tree.

Preference May Involve Shortage

Referring to the possibility of the British preference on fruit becoming effective this summer, Mr. Middleton declared that the difficulty confronting us was that we had not enough fruit to supply the markets. We might find ourselves in the same position as last year in regard to stone fruits—we did not have enough. If concessions were given the Okanagan grower and he could not fulfil his part of the bargain, that was not playing the game. Unless it could be shown that we could supply the demand at a reasonable price, we were not doing our part. It was possible that, in the first year, enough apples could not be produced to supply the demand. Some 4,000,000 boxes were being imported there now, of which we shipped about one million boxes.

Cultural practices would have to be improved to increase production, he declared, as many orchards were going back due to lack of water and fertility. In this connection, Dr. Neidig would have something helpful to say.

"I want all growers to do all they can this year to increase production in the hope of getting British preference this summer at the Economic Conference," he said. "It rests with all concerned to do all in their power to put it across. Many other industries are anxious to be included in the preferential list, and we must hold up our end. We have organizations such as the B.C.F.G.A. and the Horticultural Council to help us, and a delegation left the valley yesterday for Ottawa to present our case."

"I am certain that better effort in fertilization, irrigation and general cultural practice will double our present production of 4.6 boxes of apples per tree," he said confidently. "With this accomplished, then we can fill the bill as every extra box per tree means 1,500 carloads more."

Okanagan Produces Most Of B.C. Apples

Ninety-two per cent of all the apples grown in the province were produced in the Okanagan Valley, he continued, stating that the value of the Okanagan crop, based on an average of four years, amounted to \$5,858,104. The 1930 figure was \$6,250,000, which, with the vegetable crop added, was increased to something like \$7,360,000.

The Okanagan Valley, with its dairy, fruit, poultry and other produce, was an important agricultural area, bringing in to the province five million new dollars in fruit alone, yet the trade balance was unfavourable—the balance was on the wrong side of the ledger. "If we get the British preference," he declared, "we can wipe out that unfavourable balance

ASSASSINATED

Opposition to Japan's invasion of China cost Junnosuke Inouye, Japanese Minister of Finance, his life on February 9th. He was shot to death in Tokyo by a young politician.

with fruit alone. We have just about reached the limit in dairying and livestock production."

Answering the criticism of a man who had complained that the Kelowna farmer had "all his eggs in one basket" in fruit, he had told him that most of them realized that it would not pay for them to pull out their trees and go in for cows. There would be nothing in it if they had to pay for hay and feed, but any orchardist who had a piece of rough land might keep a cow profitably.

No branch of agriculture would pay better per acre than fruit and vegetables.

Keep Odd Sorts For Domestic Markets

Five years ago the Okanagan was producing more apples than the domestic market could consume, and the export market did not look any too good. Today, however, Mr. Middleton advised holding on to the odd sorts for the domestic market, utilizing the better varieties for export. A good box pack, he felt, would supplant many of the barrelled apples now going to the export markets.

"From a cultural point of view," said Mr. Middleton in closing, "growers should do all they can while awaiting British preference. Growers with high yields are making the money, and money spent on fertilization and care of the orchard to increase production is a good investment." (Applause.)

In reply to a question, Mr. Middleton said that the average production per tree in the Kelowna district in 1930 was 6.4 boxes of apples.

Answering a question put by Mr. W. H. H. McDougall, he said that \$6,000,000 was the f.o.b. average value of apples per year or \$1.36 per box based on figures obtained over a period of four years.

Best Varieties For Kelowna

Replying to a query by Mr. F. R. E. DeHart, he said that, among the varieties recommended for Kelowna, were the McIntosh, Newtown, Winesap and Rome Beauty. Further plantings of the Jonathan and Wealthy were not recommended as a sufficient supply of these varieties was now being grown.

Mr. DeHart stated that the Jonathan was more in demand in the Old Country than any other variety.

Before introducing Dr. Neidig, the chairman agreed with Mr. Middleton that the Okanagan would have to present a strong case, supported by the B.C.F.G.A., the Boards of Trade of the valley and other organizations, to win a preferential tariff.

Dr. Neidig

Introduced by the chairman as a man with practical experience, Dr. Neidig remarked that he had listened with interest to Mr. Middleton's comment pertaining to increasing yield. He would speak on the methods employed in fertilizing orchards and hoped to stress some of the features. Soil fertilization, he said, was essential to quality and yield "if you would have your orchard keep you instead of you keeping it."

The Need Of Fertilizers

There had been misconceptions as to the value of fertilizers in the past and there were still farmers on the prairies who would not admit that fertilizer was necessary, yet fertilizer could overcome deficiencies in the soil and seasonal deficiencies. The amount of food available to the plant was important, and seasonal deficiencies such as low temperatures in some prairie sections and in certain areas in British Columbia retarded bacterial activity. To make available sufficient plant food in cold soil supplementary foods were needed. In British Columbia there were to be found a great variety of soils, and fertilization methods necessarily had to vary, there being no one universal practice to recommend.

"In your own particular section," he said, "you must finally work out, through intensive fertilization, the methods most suitable. There are far too many short time experiments in orchard work. The ideal way is to carry out your experiments over a period of years."

Straight Nitrogen Bad Practice

In the past nitrogen had been used with good results, but it was now held that straight nitrogen fertilization was bad practice. The idea of a more balanced fertilization—not depending on any one element—was being carried out. Furthermore, too little was understood. (Continued on Page 6)

Christian healing is the one and only permanent cure for the ills of the world. Through a right understanding and a right application of Christian healing, man may be healed of any disease or sickness, and any disorder in business or affairs may be adjusted. Christian healing as taught and demonstrated by Jesus Christ is not a theory; it is a practicability which we are proving daily in all the activities of life. Jesus healed the multitudes by their faith in the power of God which was working in Him. He discerned that the same power is latent in every individual, waiting only to be quickened into action. There is a limitless storehouse of resources within the mind of man, like diamonds in the bosom of the earth that needs only light to show forth its plenty. Jesus' principal method of treatment is indeed simple. This is the application of His treatment as recorded in the four Gospels: "Thy faith hath made thee whole." "According to your faith be it done unto you." "Be of good cheer; thy faith hath made thee whole." "Fear not; only believe, and thou shalt be made whole."

Do not talk about yourself in company. It can be done so much more satisfactorily after you have left.

INTEREST RISES ON BANK LOAN TO CITY (Continued from page 1)

day evenings at sunset and turned off
by him at 10 p.m. Heretofore the store
windows had been lighted only on business
days, and it was now desired to have
them lighted also on Sundays.

It was stated that the Police Commissioners
had decided to comply with the request.

School Estimates

The School Board forwarded their
estimates for the current year, showing
a total expenditure of \$73,010.57, with
estimated receipts totalling \$21,450, in-
cluding \$16,000 for government grant
to teachers' salaries, \$4,000 school fees
and \$1,450 from other sources. In addition,
there is an unexpended balance of
\$3,298.73 carried over from 1931,
making a grand total of \$24,748.73, and
leaving \$48,261.84 to be raised by taxation,
as against \$48,053.24 last year.

A covering letter from the Board
stated that, in view of present conditions,
they had cut their estimates to the
lowest figure consistent with efficiency,
especially when faced with a steady
increase in enrolment and decrease in
government grants.

Ald. McDonald reported that he had
interviewed the chairman of the Board
in regard to the necessity of keeping the
school estimates as low as possible, but
had been advised that it was not possible
to effect any further economies.

Upon the suggestion of the Mayor, it
was decided to advise the School Board
of the fact that a ten per cent cut was
being made in civic salaries and to re-
quest that the Board endeavour to co-
operate from the commencement of the
next school term, when new contracts
will be entered into with the teachers.
Any reduction between now and then
will have to come as a voluntary offer
on the part of the teachers.

The Revised Assessment

A report was received from the As-
sessor and Collector, Mr. P. T. Dunn,
upon the assessment of the city as finally
revised by the Court of Revision. The
figures for 1932 are:

Taxable lands \$1,469,852.50
Taxable improvements 3,152,675.00

Total assessable \$4,622,527.50

Exempted lands 255,875.00
Exempted improvements 410,750.00

Total valuation \$5,289,152.50

The figures for 1931 were:

Taxable lands \$1,473,710.00
Taxable improvements 3,071,750.00

Total assessable \$4,545,460.00

Exempted lands 252,575.00
Exempted improvements 397,350.00

Total valuation \$5,195,385.00

As compared with 1931, there has
been an increase in tax exempted land
values of \$3,300.00, an increase in tax
exempted improvement values of \$13,-
400.00, an increase of \$80,925.00 in tax-
able improvement values, and a decrease
of \$3,857.50 in taxable land values.
The net result is an increase of
\$77,067.50 in the assessable value of the
city and of \$93,767.50 in the gross valuation.

Twenty-one appeals were lodged against
the assessment, and the Court of Revision
granted reductions totalling \$2,000.00 on land values and \$3,-
750.00 on improvements.

One hundred and twenty-three com-
pleted or partially completed buildings
were appraised for the 1932 assessment,
twenty-five of which were not com-
pleted during 1931 and should be re-
valued with other buildings constructed
during the current year.

The portion of the Kelowna School
District outside the city limits shows a
decrease in assessed values of \$200.00.
Taxable lands now total \$102,900.00 and
taxable improvements \$135,575.00; as-
sessable total, \$238,475.00; value of tax
exempted lands, \$700.00; total valuation,
\$239,175.00.

The Mayor spoke of the report in
very complimentary terms and considered
that the fact that appeals numbered
only twenty-one reflected much credit
upon the Assessor for the pains-taking
care shown in his valuations.

Crushed Rock For Provincial Use

A letter from Mr. J. N. Cushing,
General Foreman, Provincial Public
Works Department, enquired whether
the City could supply crushed rock and,
if so, at what price.

City Engineer Blakeborough, having
been asked to express his views on the
matter, favoured selling crushed rock to
the Government, as it would permit
starting up the crusher earlier than had
been contemplated and thus providing
extra employment. He had not yet fig-
ured out the exact cost of crushing the
rock at the City quarry, but it was
much less than that of dealing with the
boulders formerly obtained from Rut-
land.

The aldermen generally favoured the
sale of crushed rock, provided that the

price obtained would be adequate to
cover all costs, including wear and tear
and maintenance of machinery, and it
was left to Mr. Blakeborough to com-
pute the figure at which it could be sold.

Financial Data As To Applicants For Relief

Approval was given to a resolution
forwarded by the City Council of Cran-
brook, proposing that steps be taken
to urge upon the provincial and federal
governments the importance of legis-
lation being enacted to provide means
for municipalities obtaining information
from banks, trust and loan companies
and other repositories of savings as to
whether or not applicants for civic re-
lief have funds on deposit, such infor-
mation to be furnished in confidence to
mayors, Reeves and clerks of munici-
palities.

Health

Ald. McKay reported that he had
been informed by Dr. G. A. Ootmar,
Medical Health Officer, that the origin
of recent cases of typhoid had been
found, and when his orders were strictly
adhered to there would be no danger
of spread of the disease. As to vaccination,
all the school children had now
received treatment.

Airport

A letter from the Airport Manager of
Vancouver drew attention to a proposed
air tour of the Interior to be made
this coming summer and asked for par-
ticulars of the landing field at Kelowna.
It was referred to Ald. Jones, who has
interested himself keenly in the ques-
tion of a local landing field.

Agreement With Power Company

A draft of a five-year agreement with
the West Kootenay Power & Light
Company for supply of current was re-
ferred to Ald. Galbraith for examina-
tion and report in committee.

Sale Of Lot

By-Law No. 575, selling Lot 16, R.P.
1239, to Mrs. Mary Marguerite Carleton
for \$100, was given final passage.

Reduction Of Civic Salaries

Mayor Gordon said he regretted very
much that the time had come to make
reductions in the salaries paid to the
staff, and he hoped that the necessity
for such economy would be only tempo-
rary, as the services rendered were
satisfactory in every way and no reflection
upon any member of the staff was
involved in the reductions. The Dom-
inion was getting only 99 for its 5 per
cent bonds and the Province of British
Columbia had been forced to pay 6
per cent on a recent issue. This made
it extremely difficult for the municipali-
ties to float any issues, and strict econ-
omy in all departments was essential.

He was glad to say that all the civic
employees were accepting the cut with
good grace in view of the circumstances,
and he and the aldermen were also
voluntarily relinquishing a portion of
their indemnity.

A resolution was then introduced and
passed by unanimous vote, putting into
effect from March 1st an average re-
duction of ten per cent in the salaries
of the permanent staff. Fourteen em-
ployees will be affected, besides three
constables, who are under the jurisdic-
tion of the Police Commission but read-
ily agreed to accept the reduction.

The Council then adjourned until
Monday, March 14th.

OKANAGAN MISSION

Members are reminded of the meet-
ing of the Farmers' and Taxpayers'
Association to be held at the School
on Friday evening (26th), at 8 p.m.
Mr. G. A. Barrat will speak on pros-
pects in the English market and Mr.
Minogue will speak on the winery pro-
posals (Monti method). The question
of formation of a local branch of the
B.C.F.G.A. will be considered. A full
attendance is desired.

On Friday afternoon the Women's
Institute are holding a card party for
bridge and whist players at Mrs. Nor-
ris'. Players are asked to arrive punctu-
ally at 2.30.

Weddings can not be considered fre-
quent events in the Mission, and Feb-
ruary 1932 will long be remembered
for the reason that two of our local
ladies have left us as brides. On Feb-
ruary 1st Miss Betty Fuller married
Mr. "Budge" Barlee, and on Saturday
last, February 20th, Miss Margaret
Renfrew became the bride of Mr. E.
W. Barton of Kelowna. The wedding,
which was a very quiet one, took place
at the First United Church at 3 o'clock
in the afternoon, Mr. McMin officiat-
ing. The happy pair have taken up
residence at Mr. Barton's house on
Elliott Avenue.

The usual monthly meeting of the
Women's Institute will be held at Mrs.
McDonald's house at 3 p.m. on Tues-
day next, March 1st.

The Parish Guild are holding a
White Elephant Tea on March 7th at
Mrs. Taylor's. A small fee will be
charged for admission (including tea),
but visitors are urged to come accom-
panied by their "white elephants" as
far as possible.

The mild weather during the past few
days, while most welcome, has reduced
the condition of the roads to their most
unpleasant degree of wet and sticky
mudiness. However, this phase has
to be endured with the coming of the
spring thaw, and the sooner it is over
the better for all. Probably the roads
are at their very worst just now, so
an improvement may be looked for shortly.

EAST KELOWNA

A public meeting was held in the
Community Hall on Thursday evening,
February 18th, to hear the report
of the committee appointed at the last
water meeting to go into the proposal
to form a rural municipality in the East
Kelowna district. About sixty were
present. Mr. J. E. Reekie was voted to
the chair and Mr. A. B. Woodd acted
as secretary.

The committee, Messrs. J. E. Young
and W. McKay, who had evidently given
a lot of time to the subject, gave a
very full report, covering both sides of
the question and bristling with figures
of possible receipts and expenditures.
They also showed a large scale map of
the suggested municipality.

A long discussion then ensued with
regard to the number of spraying ma-
chines necessary for putting on a proper
spray programme for the codling moth,
also means of financing purchase of
such machines.

From letters read by Mr. Young, it
was evident that there was no prospect
of getting government help, either in
cash or by assistance in buying ma-
chines. Then we had lots of information
as to spraying and how it should and
how it should not be done; also a life
history of the codling moth, but we did
not hear whether the moth preceded
the egg, or vice versa.

Mr. Woodworth, of the Morrison
Tractor Co., attended and gave infor-
mation as to prices and terms of pur-
chase of spraying machines.

The chairman spoke on compulsory
spray zones, and he quoted tests show-
ing that proper spraying of certain
rows in an orchard would reduce dam-
age by worms to one per cent as
against eight to fifteen per cent
when in adjoining unsprayed rows.
This proved that individual action
would protect one's orchard in spite of
the neighbours' neglecting to spray.
This applied to the case of a district
when heavily infested by codling moth.

After this discussion, Messrs. Mar-
shall and Butler moved a resolution
that, in the opinion of the meeting, it
was not a good time to form a rural
municipality. On a vote being taken,
the motion passed, only two voting
against it.

Before adjourning, a very hearty vote
of thanks was tendered to Messrs.
Young and McKay for the good work
they had done for the district in this
matter, and many compliments were
offered Mr. Young (who is "Reeve" he
says) for his excellent presentation of
the subject.

A Leap Year dance is to be held by
the Women's Institute at the Commu-
nity Hall on February 29th, 8 to 12
p.m. Committee: Mrs. Jones-Evans,
Misses N. Moodie, G. Porter, E. Small-
man and Mrs. Thorne. Two prizes
are offered for best costumes.

The card party at the Hall on Friday
evening was very enjoyable, and the
winners of highest points were: Mrs.
J. Wilcox in whist and Mr. A. Shaw
in 500. A very nice supper was served
by Mrs. Evans and Mrs. Porter, and
the institute benefited to the extent of
\$6.00. It was unanimously decided to
hold another and similar card party
next Friday evening, February 26th.

On Saturday a special meeting of the
Women's Institute was called at 3 o'-
clock to hear the report of the Hall
Board. This committee have decided
to build an addition to the east side
of the Hall, a 10 ft. x 24 ft. by 14
ft. Mr. H. A. Porter has consented
to act as foreman. A resolution was
passed unanimously that the bills in-
curred by the Hall Board be paid by
the Women's Institute.

The proposed new room is intended
to fill the need for a smoking room,
able room for holding meetings and to
serve also as a dressing room for the
Gym Club. It is hoped in time to line
this room properly with Gyproc. The
Hall Board will be grateful for dona-
tions towards this addition, an amount
of \$37.00 is already promised and there
are lots of willing workers.

The delayed annual meeting of the
Parish Guild was held in the Community
Hall on Sunday afternoon, February
21st, at 2 p.m. The Rev. C. E. Davis, in the chair. A state-
ment of the year's work had already
been given at the annual vestry meet-
ing so this was passed as read. The
Secretary read the financial statement
(already reported) showing a balance
of \$220 in hand. The officers elected
for the year are: Mrs. Moodie, Presi-
dent; Mrs. Moodie, Vice-President;
Mrs. Tasker, Mrs. Evans, Mrs.
Reynolds and Mrs. Thorne, Secre-
tary-Treasurer. The first committee
meeting will be held on March 1st at
Mrs. Reynolds' house.

(Items omitted last week)

The Valentine dance was held on the
13th inst. under the auspices of the
W. I. and about seventy people were
present. Mesdames Moodie, Thorne,
and Woodd acted as the Committee,
and the evening was very gay with de-
corations of hearts, etc., and the Valen-
tine favours worn, which were kindly
supplied by Messrs. P. B. Willits & Co.
The balloon dance was an attractive
feature, adding to the hilarity of the
evening, also four prizes for the young-
est members. Excellent music was sup-
plied by Miss E. Smallman, Mr. Hall,
Mr. Tasker and Mr. Walter Porter;
and the M.C., who certainly kept the
ball rolling, was Mr. Geo. Porter. They
have promised to do the same for the
Leap Year dance.

The handsome rug, donated by the
Kelowna Furniture Co., was won by
Mrs. Wm. Wilcox and the sum of
\$13.30 was taken besides season tickets
used. The Institute quilt raffled was
won by Mr. Wm. Affleck.

Protected from the hunter and living
their lives as nature intended, the an-
imal population of Jasper National Park
has shown a remarkable increase dur-
ing the past few years. A recent an-
imal census shows that in this 4,200
square miles of game sanctuary there
are today no less than 3,000 elk, 20,000
mountain sheep, 10,000 Rocky Mountain
goat, 5,000 bears of various species,
10,000 moose, 25,000 deer and 9,000
caribou.

ORCHARD RUN

A Jumble Pack Of Current
Comment
By R. M. R.

THIS COUNTRY NEEDS

—a cough mixture for radio tubes;
—cigarette lighters that light;
—boy friends with more money;
—bigger appetites for spinach;
—self-returning umbrellas and lawn-
mowers;
—brand new jokes;
—invisible modernistic paintings;
—diets that will not bear discussing;
—doorbells that won't ring when
pulled by peddlers;
—a size three shoe that will fit a size
six foot;
—warmer cold and colder heat;
—fewer prophecies of prosperity;
—fewer prophecies of gloom;
—fewer prophecies;
—?

I might add "fewer writers who have
nothing to say," but that would be
treading on dangerous ground.

LILIES OF THE FIELD

With their long holiday at the ex-
pense of the country at an end, the un-
employed who have been languishing in
the winter resorts provided for them by
a kindly government are somewhat an-
noyed that their keeper should have the
audacity to suggest that they should
now earn their bed and board by the
sweat of their brow. Well fed and
housed during the winter, provided with
an issue of clothing and the luxury of
tobacco, many of these fellows have
had their pride wounded by the unheard
of suggestion that they should lend
their muscles to toil in an effort to buy
back their self respect and justify their
existence.

Proudly and nobly—one might say
sacrificially—these good men "will not
lower the standard of living and wages"
by accepting \$7.50 a month and their
board for six hours work five days a
week. It will not, they say, take care
of "the wear and tear of our clothing,
let alone tobacco, toothpaste and other
bare necessities."

Now that tobacco has been establish-
ed as a necessity, why not go a step
further and include Scotch whiskey in
the same category? As for toothpaste,
some of our poor working stiffers are not
always financially able to replace an
empty tube with unflinching consistency.
The men who are at work today in
relief camps, trying to liquidate the debt
they owe to the province, are likely to
go farther in life than the chronic kick-
ers who march about the country
damning the "system" up hill and down
as an excuse to evade honest labour.
And those of them who are so gravely
concerned about lowering the standard
of wages conveniently overlook the fact
that, if they went to work for nothing
but their board for several months, they
would still be receiving, because of the
debt they owe, higher wages than the
average working man in British Colum-
bia.

ENCOURAGING WORDS

Out of the wilderness of depression
comes a man with a message of opti-
mism—and that optimism is the more re-
markable because it relates to the much
harangued fruit industry, out of which,
if reports are to be believed with Sun-
day School faith, no one makes any
money.

This thinker for himself, Maurice S.
Middleton, Government Horticulturist
at Vernon, repeated to a Kelowna au-
dience last week the remarks that erased
some of the habitual gloom from the
deliberations of the B.C.F.G.A. conven-
tion last month. At a time when grow-
ers were worrying about overproduc-
tion Mr. Middleton came along to tell
them that they would have to climb
over the fence and do some construc-
tive worrying about increasing produc-
tion if the demand for Canadian apples
to be created by the Empire preference
tariff, is to be met.

The only fly in the ointment is that
this preference is not yet definitely as-
sured, but if Okanagan growers are not
prepared to meet it when it comes it
won't last long. In any event, no or-
chardist stands to lose by doing all in
his power to increase his yield. In this
connection, Dr. Ray Neidig, of the Con-
solidated, Trail, had considerable to say
on methods of fertilization.

Old Man Depression will receive a
sad blow if the Okanagan grower has to
get out and produce more apples—and
not worry too much about disposing of
them.

FORE!

Neophytes are to be welcomed to the
charmed circle of the golfing fraternity.
Not that they have not always been
welcomed at a price, but today it is
being made ridiculously easy for the
novice to go out on the local course and
fan the atmosphere to his heart's con-
tent. Without paying the usual en-
trance fee of twenty bucks he can now
join the Turf Diggers' Union (the small
army of beginners) and enjoy all the

MARRIAGE

Barton—Renfrew

In the presence of only immediate relatives, owing to a recent bereavement in the family of the bride, a very quiet wedding ceremony in the First United Church, Kelowna, on Saturday, February 20th, Rev. A. K. McMinn officiating, united Margaret Elizabeth, younger daughter of Walter Charles Renfrew, of Brookhurst, Okanagan Mission, and the late Mrs. Renfrew, to Eric Walter, elder son of Mrs. Charlotte Annie Barton, of Mapperley Park, Nottingham, England, and the late Walter John Barton.

Local and Personal

Mr. W. G. McLachlan, General Manager, Begg Bros., Vancouver, was in the city on business this week.

A card party and dance will be held by the Kelowna Sea Cadets in the Orange Hall on Thursday evening next.

Judge J. D. Swanson, of Kamloops, was in the city on Friday, Saturday and Monday, holding sessions of County Court.

Mr. Wm. C. Solway, Executive Commissioner, Boy Scout Association, Vancouver, was a guest of the Willow Inn over the week-end.

Mr. W. J. West, Manager of Dominion Canners (B.C.) Ltd., Vancouver, was in the city last week, a guest of the Royal Anne Hotel.

Mr. I. V. Saunders and Mr. R. N. Taylor, of Nelson, are registered at the Royal Anne Hotel. They are here for the badminton tournament this week.

Mr. S. B. Watson, Canadian Manager for Thos. Nelson & Sons, Ltd., Toronto, was a visitor to the city last week, when he stayed at the Royal Anne Hotel.

Miss Ida L. Clark, of Toronto, representative of the Gossard Corset Company, spent several days in the city a guest of the Royal Anne Hotel. She left on Monday.

Mr. Donald B. McLean, of the Royal Bank of Canada, has been transferred to the local branch. Mr. McLean was a member of the staff of the bank here about a year ago.

A chimney fire at the Catholic Church Rectory, residence of Rev. Father W. B. McKenzie, Sutherland Avenue, was responsible for the Fire Brigade being called out on Friday, at 5.25 p.m. Chemical was used to quench the flames, but no damage was done.

The Young People's Department of First United Church extend a cordial invitation to attend an illustrated lantern lecture, "The Story of Korea," to be given by Dr. Donald Black in the United Church Hall on Sunday evening next, at 9 p.m.

The home of Mr. T. R. Hall, Glenwood Avenue, was the scene of a pleasant social function on Friday evening on the occasion of Mr. Hall's birthday, when about thirty friends gathered to extend felicitations to the Inspector of Schools. Dancing was enjoyed during the evening.

Woodcarving as a hobby was the subject of a talk given by Dr. J. W. N. Shepherd to the Rotary Club at their luncheon meeting in the Royal Anne Hotel, on Tuesday. Mr. C. L. Thring, of Winnipeg, a relative of Mr. S. M. Gore, and Mr. Kenneth MacLaren, were guests of the Club.

To accommodate west side patrons of the organ recital to be given by Miss Joyce Hayman in First United Church tomorrow night, a special ferry will be operated at 10.30 p.m. A most entertaining programme has been arranged for this musical treat, and a large crowd is expected to hear the talented organist.

At the monthly meeting of the Women's Institute, held on Tuesday, Mr. H. A. Blakeborough, City Engineer, gave a very interesting and instructive address on "Electricity and its uses" to members and their friends. Among the various activities carried on by the Institute is the monthly Baby Clinic, seventeen mothers and twenty-two babies being in attendance on Friday last.

The clothing stores of the Kelowna and District Volunteer Relief Association will be open only two days a week in future, Wednesday and Saturday, from 3.30 p.m. to 5 p.m. The stores are situated in the old wooden school building at the corner of Richter Street and Glenn Avenue. Only those in dire need can be served, and no more new clothing can be purchased except for the most extreme cases of need among school children.

Old friends throughout the Kelowna district will sorrow to learn of the sudden passing on Saturday, February 20th, at his residence near Chilliwack, of Mr. Aubrey Lisle Hinkson, who came to the Okanagan in the early nineties and made his home here for a number of years before moving to the Coast, where he had resided for a considerable period. Details are lacking, but it is hoped to publish a more extended notice in next week's issue.

Dr. J. Wesley Bready, M.A., of Toronto, who recently returned from England after spending the past ten years studying conditions in the Old Country, will address the Canadian Club at a dinner meeting in the Royal Anne Hotel on Tuesday evening next. His subject will be one of these two: "Where Now Stands England?" or "Two Great Social Reformers—Lord Shaftesbury and Dr. Barnard." Dr. Bready comes to Kelowna highly recommended by outstanding educationalists.

OBITUARY

Mr. Charles E. Barnes

Following a sudden and very brief illness, the death took place on Friday morning, at his residence on Bernard Avenue, of Mr. Charles E. Barnes, widely known throughout the province as the President for several years of the B. C. Fruit Growers' Association.

Born at Carbondale, Pennsylvania, Jan. 19th, 1862, Mr. Barnes was educated at Paterson, N. J., and entered the United States Navy, which service he left to go into business with his father in New York, later entering business on his own account at Stamford, Conn., where, in 1894, he married Miss Keturah Craig, daughter of the Rev. Alexander Craig, of Stamford. He came to British Columbia in 1903 and after the requisite period of residence took out naturalization papers as a citizen of Canada. With the assistance of British capital, he was instrumental in developing the town and district of Wabasso, near Ashcroft, becoming deeply interested in fruit growing. Identifying himself with the work of the B. C. Fruit Growers' Association, he speedily gained the respect and confidence of the members and for seven years he filled the office of President, discharging the duties with conspicuous ability.

In 1923 Mr. and Mrs. Barnes moved to the Okanagan, and for a time Mr. Barnes had charge of the publicity work of the Associated Growers while resident in Vernon. Moving to Kelowna about eight years ago, he took up authorship at what might seem the late age of sixty-two, and achieved outstanding success as a writer of short stories, mostly concerned with frontier life. He also published two novels and shortly before his death he had been approached to supply scenarios for use at Hollywood.

In Mr. Barnes the Rotary Club loses an enthusiastic member, and to his numerous friends and acquaintances here and throughout the province his sudden passing comes as a severe shock and a great loss, and to his bereaved wife their deepest sympathy is extended. Three brothers and one sister, all resident in the eastern portion of the United States, also survive.

The funeral was held on Monday from St. Michael and All Angels Church to the Kelowna Cemetery, Rev. C. E. Davis officiating. The service was largely attended and there was a profusion of flowers. The pall bearers were: Messrs. St. G. P. Baldwin, H. V. Craig, W. M. Fraser, J. Hunt, A. K. Lloyd and Dr. J. W. N. Shepherd.

Mr. Robert Cecil Sutton

Mr. Robert Cecil Sutton, who passed away in the Kelowna General Hospital on Wednesday, February 17th, had been in impaired health during the past two years, having undergone several minor operations, but the last stage of his illness lasted only three days and its fatal termination came as a shock to his many friends.

Mr. Sutton, who was fifty-one years of age, was born in Oxfordshire, England, where he received his education. After a year or two in London he came to Canada in 1903, to New Brunswick in the first instance. Thence he went to Guelph, Ont., and took a three-year course at the Ontario Agricultural College, thereafter taking up farming in Manitoba, which he followed until the outbreak of the Great War. He enlisted in the 14th Battalion, C.E.F., and served overseas until the end of the war. Returning to Manitoba, he engaged in mercantile business for a time and then spent three years at Banff in various pursuits, moving to Kelowna about nine years ago and taking up residence at first in Glenmore, later in town and latterly in Glenmore again.

Mr. Sutton became a member of the Great War Veterans' Association immediately upon his arrival in Kelowna and was a skilled and enthusiastic cricketer, eagerly took part in the revival of the fine old game in Kelowna and was one of the mainstays of the Legion Cricket Club, by whom he will be sadly missed. He was a clever pianist and his musical talents were always freely at the disposal of the Legion in connection with their smoking concert.

Two daughters, with whom deep sympathy is felt in their loss, survive, Sylvia of Kelowna, and Betty (Mrs. Andy Crawford), of Vancouver, also three brothers and a sister in Canada, Gordon, of Kelowna, Harold and Allan, of Lloydminster, Sask., Miss Sylvia Sutton, of Kelowna, Charles, of Sevenoaks, Kent, Basil, of Lambourn, Berks, and Mrs. Bashford, of Hampstead, London.

The funeral was held on Sunday afternoon from St. Michael and All Angels under the auspices of the Kelowna Branch, Canadian Legion, of which there was a large attendance of members. Rev. C. E. Davis officiated. The pall bearers, all veterans, included Messrs. G. Matthews, R. G. Bury, Harold Miller, Chas. Gowen, Geo. Strang and H. Dick.

Under the name of the Pentiction Ski Club, a group of energetic young people are planning the development of leased land for such fascinating sports as tobogganing, bobsleighbing and other winter amusements. Forming a natural bowl, with a ten-acre flat at the foot of it, the land leased by the club is within three miles of Pentiction centre. There are hills for every sort of skiing, from the baby jumps of the beginner to the long leaps of such men as Nels Nelson.

The Wabasso of Colour

Demonstration of Wabasso Merchandise at the ROYAL ANNE HOTEL on MONDAY, FEB. 29th at 3 p.m.

MRS. COLQUHOUN, of the Wabasso Cotton Mills, will give an hour's talk on Wabasso Products.

FAMOUS QUARTETTE TO VISIT KELOWNA

Hart House Instrumentalists To Give Concert Here On March 8th

In the Hart House Quartette, founded by the Hon. Vincent Massey in 1924, Canada has made a most valuable contribution to the music of the world. Of virtuosity there is, literally, no end, and competent symphony orchestras in profusion, but string quartettes of the first rank can be counted on the fingers of one hand and among them the Hart House ensemble takes high rank.

While individual talent of the first order and hard unsparring work has played an important part in the unique success of the Hart House Quartette, that subtle, impalpable factor known as personality has also been responsible. A very brief sketch of the players may serve partly to explain why this is so.

The first violinist, Geza de Kresz, is the son of one of the most famous doctors in Hungary. Quite naturally, he was expected to don the white robe and wield the scalpel, but he early showed that one instrument and one only could command his interest, the violin. Possessed of unusual talent, the leader of the Hart House Quartette has been lucky enough to come under the influence of the foremost musicians of his time, including Ysaye and the arch-conductor Arthur Nikisch. Nikisch was conductor of the Berlin Philharmonic Orchestra and for some years de Kresz was his concert-master and soloist.

Harry Adaskin, the second violin, has had to fight for an adequate musical education. Determination and pronounced talent have, however, procured it for him. He has sat at the feet of such masters of the bow as Samartini and Thibaud.

Milton Blackstone, in addition to being one of the greatest violinists in the world, is held in great admiration by all who know him for his business ability. He has successfully "sold" the Hart House Quartette to the music-lovers of both Europe and North America. That he had a magnificent product to sell does not detract from his success at all. As Blackstone plays so he is—vivid, brimful of energy and quite irresistible.

Boris Hambourg is one of a family of very distinguished musicians. His brothers, Mark, the pianist, and Jan, the violinist, are known wherever music is loved. He has appeared with most of the great orchestras of Europe and America and is recognized as one of the greatest masters of his instrument

INSURANCE

Fire alarms cause a sense of fear or security on every one. Though many who feel secure may not actually be so! There is more to full protection than merely ordering "a policy." Let us go over your requirements and recommend the SORT of policy you require.

NEW LAUNDRY SERVICE OFFERED TO MEET PRESENT TIMES

Superseding our "DAMP WASH," we now offer an improved service which eliminates the objectionable features of this wash. It is called the "READY-TO-IRON" SERVICE, in which your bundle is returned to you absolutely ready to iron.

The creases are shaken out and the clothes dried so as to be just damp enough to iron, and all for 6c per lb., an addition of one cent to the price of the Damp-Wash.

Believe it or not, we can show you that it costs you less to have your linen washed in this way by us than to do the work at home, and we fearlessly say that the work is much better done. Both the washing and the rinsing are more thorough, about six changes of water being used during our process.

DR. OOTMAR has made tests of our ability to destroy all germs, and he testifies that our work is absolutely sanitary in this respect. Dr. Ootmar has kindly allowed us to use his name, and will be glad to corroborate our statement if you phone him up.

We are also prepared to make Monday morning calls for this service, clothes to be returned Tuesday. This only within the city limits. DECIDE NOW, to have our driver call on you and explain further, or call 123 for a trial order.

TEN CENTS A MEAL

(By Barbara B. Brooks)

Marion looked up from her account books the other day, smiled and said, "I have served ninety-four meals during these past two weeks, on ten dollars and three cents. That is only a little over ten cents a meal." She was pleased with this result and had every right to be. Even experts say that it is almost impossible to "secure adequate nutrition on less than ten cents per person for each meal. This young housewife did it on exactly ten cents and six mills as an average. That is almost the limit!

These figures, compiled in a family for two, should be an incentive to those who now waver on the brink of matrimony. For, even if two cannot live as cheaply as one, ten cents is not very much to spend for food for each meal. This being late year, it might be well for unmarried girls to keep these statistics on the tips of their tongues. Statistics are always so convincing. At least it is interesting to know that good meals can be had for so little money.

How did Marion do this? Did some relative or friend keep a market in which she obtained a discount on her groceries? Was her husband an extremely light eater? Did she scrimp or dote out her food? Did she never have guests? The answer to all these questions is, no!

She did her shopping in an ordinary public market and she paid full price for everything. She bought in large quantities when possible and watched the sales. Perishables were bought in small amounts and only as needed, but she always had a good supply of staples on hand. When sugar was cheap, Marion bought a supply for several weeks. During the fall months, she filled the vegetable cellar with potatoes, cabbage, squash, apples and onions, preserved fruits and canned vegetables, if she could buy them at reasonable prices. She has even been known to can meats.

Her husband, like most men, has a very healthy appetite and eats plenty. She certainly does not scrimp or dote

out her food. Her table is always substantially if not elaborately laden and you never leave it hungry. During the weeks in which she maintained this low average, she entertained seventeen guests. Of course, it sometimes lowers the average to have guests. With just two there are so many left-overs and unavoidable wasted materials.

Above all, this young woman plans her meals in advance. She anticipates how she must use up a roast, if she buys one. She knows that, if she makes a cake one day, it will have to be turned into a cottage pudding several days later, and she plans accordingly. This method not only saves money, but it saves time. It eliminates last minute pondering as to what to have for a meal.

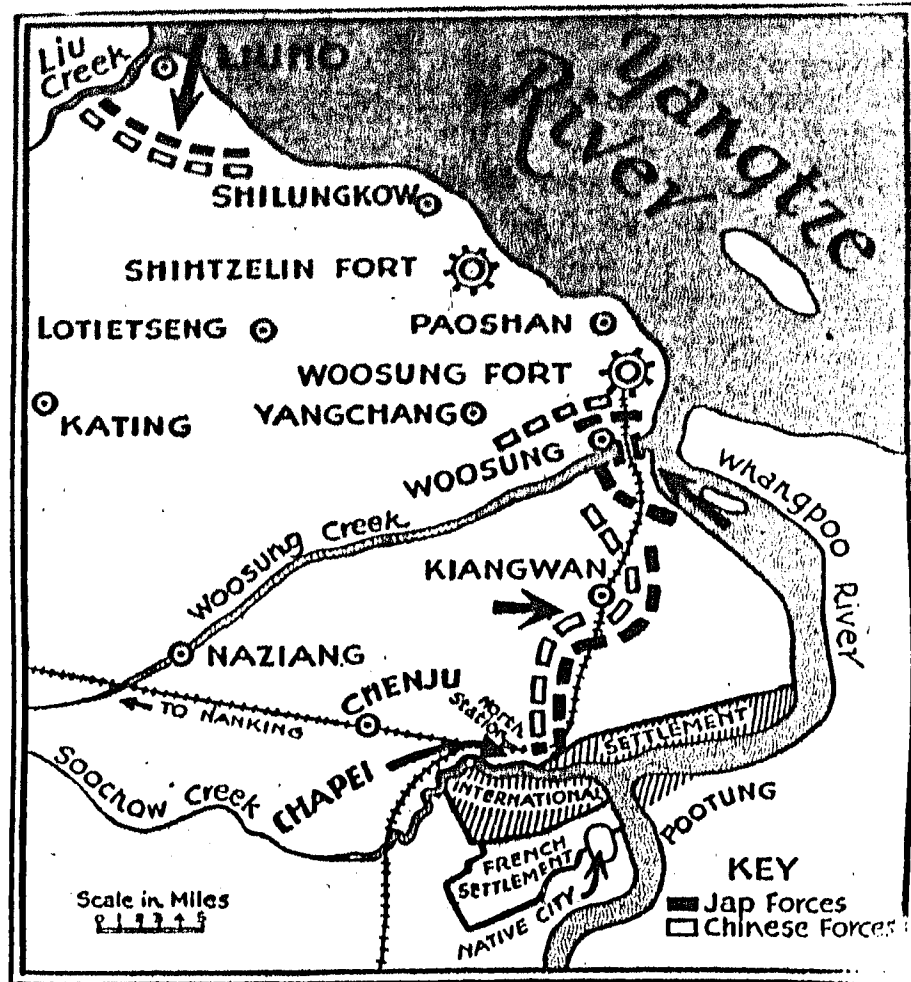

Let us see what she serves. One of her Saturday menus is as follows:

BREAKFAST
Grapefruit (sectioned)
Corn Flakes
Toast Butter
Coffee Milk
LUNCHEON
Fried Eggs
Creamed Potatoes
Buttered Peas
Head Lettuce Salad
Bread Butter
Tea
DINNER
Pork Chops with Baked Creamed Potatoes
Stewed Tomatoes
Celery
Whole Wheat Bread Butter
Pineapple Spice Cake
Caffeine-free Coffee

The spice cake was made the day before and had already been served once on Friday. Several days later she served it with vanilla sauce. There was not a crumb wasted and that is as it should be. In these menus she used a half can of peas and a half can of pineapple. The following day or Sunday, the pineapple was combined with cabbage to make a salad. The other half of the can of peas was used the night before with creamed salmon.

Wise person that she is, she has discovered that two grapefruit sectioned makes six servings. Otherwise two grapefruit make only four servings and surely there is no law which says that we must eat a half grapefruit at one sitting. One third, nicely sectioned, is just as pleasing.

These prices will vary according to locality, but you will find them very economical. Even if salaries have been cut and even if your food allowance is low, remember that where there is a dime—there is a way to good meals, providing you are a wise manager.

AREA OF SHANGHAI CONFLICT

The reports of the fighting in and around Shanghai have been so confused that it has been difficult to locate the fighting lines. The situation has now clarified sufficiently, however, to indicate, roughly, the three fronts. One extends from Chapei northward to a point near Woosung Creek. The second is in the neighbourhood of the Woosung forts, and the third is at Liuhlo, twenty miles away, on the north-west. It is there the Japanese may try to develop a flanking movement.

APPLE DEMANDS MAY CATCH UP WITH SUPPLY

(Continued from page 3)

derstood of the value of phosphates and potash, and until a few years ago it was not known that placement had anything to do with results. Phosphates seldom get down to the roots of the plant, and potash, fixed in the soil, sometimes took years to get to the tree roots. Some of the experiments conducted were failures, it was found, due to the placement problem or the lack of placement.

Phosphates And Ammonia

Phosphates in combination with ammonia had a greater penetrating power, it had been found. The effect of phosphates on the fruit and the tree was to ripen the wood more rapidly and mature the fruit earlier. An excess of mineral fertilizers did no harm, but an excess of nitrates, without other elements, would do damage. Plenty of organic material was needed in the fertilization of an orchard. Cover cropping, ploughing under, etc., would not help to obtain high production on sandy soil. It was better to adequately take care of small acreage than to farm a large area with something lacking in cultural methods. Acreages lacking water and plant food, when normally fed, would stand more hazards.

Fruit trees, when deficient through lack of nutrition, could be helped by fertilization, better advantage could be gained from water through the use of phosphates. For the past two years he had been studying the effect of fertilizers with the district horticulturists and that study was being carried on. More thought should be applied to the business end of farming and orcharding, he mentioned in passing. It was necessary to find out the cost to get at the cause.

Mentioning the fertilizer plant at Trail, which had been put into operation at a cost of \$10,000,000, he invited his hearers to visit the plant at any time. There forty-seven tons of ammonia were manufactured a day, and from 270 to 420 tons of fertilizer was the daily output. It was not a by-products plant, as some understood. He explained the various processes in use such as the liquifying of air to make ammonia, and with ammonia ammonium sulphate was made possible. They were able at Trail to supply Canada's needs.

"As you get more familiar with what fertilizer will do you will do more," he said in conclusion. "It is important that yields reach the maximum. We don't profess to know all about the fertilization of apples, but we do know that it is essential to keep the soil in the finest condition by feeding it sufficient organic matter, and the intelligent use of fertilizer will help. A run down orchard can't be cured the first year. On one occasion, it took me three years to bring an orchard up to maximum production. If you put the food there and do intelligent pruning, you will be able to take off more boxes per tree."

Before exhibiting his lantern slides, Dr. Neidig answered a number of questions.

Animal Compared With Chemical Fertilizers

Replying to Mr. C. E. Weeks, who asked if comparative tests with animal and chemical fertilizers had been made, Dr. Neidig said that barnyard manure should be used as much as possible but it had to be well spread out. Barnyard manure contained potash and nitrogen but lacked phosphates, consequently it should be supplemented by phosphates. Chemical fertilizers were less costly than animal fertilizers.

"If you have doubt there is anything lacking in the soil always use fertilizer," he advised, "but study the methods of application to get to the roots. We have a long tube with which we have been doing experimental work to get to the roots of the plant. In many cases, a combination of nitrogen and phosphates is of most value to the soil; in other cases, the addition of potash is beneficial."

When all questions had been answered, the lights were turned off and the slides were shown, accompanied by a descriptive talk. Prairie scenes comparing crops cultivated with fertilizer and without indicated the advantages of using fertilizer, the former crops showing better yields and ripening five or ten days in advance of those not cultivated in the same manner. Views of the Consolidated plant at Trail were shown, also views of farms in British Columbia where comparisons were made with all kinds of vegetables and fruits grown with and without the aid of fertilizer.

A hearty vote of thanks to the speakers was moved by Mr. H. B. D. Lyons, after which the meeting adjourned.

WESTBANK

The Women's Institute held their monthly meeting at the home of Mrs. Stevens on Tuesday afternoon with eighteen members present and the President, Mrs. W. J. Stevens, in the chair.

The Secretary, Mrs. Halpin Moffat, read the minutes of the last meeting which were adopted. The Treasurer, Mrs. Hoskins, gave an account of the money expended on the V.O.N. office which was passed, the Nurse, Miss Barton, V.O.N., expressed her appreciation of the furnishings of her office. Mrs. Prior then read her programme

"CHRISTIAN GENERAL" AGAIN TO FORE

Reorganizing its cabinet in a desperate effort to achieve unity against the Japanese attack, China has called Feng Yu-Hsiang, better known as the "Christian General," to be Minister of Home Affairs.

TWENTY YEARS AGO

From the files of "The Kelowna Courier"

Thursday, February 22, 1912

"At a meeting of the Liberal Association, held on Tuesday, Mr. D. Leckie was appointed delegate to the Provincial Liberal convention, to be held at the Coast next week, with Mr. F. R. E. DeHart as alternate."

"A tipsy individual created considerable amusement on the wharf at boat time on Wednesday by dancing an impromptu Highland fling in the exuberance of his spirits. He was a typical lumberjack on a spree and even those 'goody-goody' persons who deplored his straight-from-the-shoulder language, more forcible than refined, could not but smile at the antics of the whisky-befuddled child of nature. The 'jack's' hard-earned money goes quick when he strikes civilization."

"The celebration of the Chinese New Year, which began on Friday, was a very tame affair this year compared to the bombardments and cannonades of the past—much to the relief of the grown-ups and the disappointment of the small boys. According to the local Chinese, the white men's method of reckoning time will be followed in future, and the abolition of the ancient Chinese calendar will thus be coincident with and reminiscent of the downfall of the oldest empire in the world."

At the annual meeting of the Board of Trade, held on Feb. 19th, Mr. R. B. Kerr was elected President for the ensuing year, Mr. D. Leckie, Vice-President, and Messrs. P. DuMoulin, D. W. Sutherland, W. A. Pitcairn, H. W. Rayner, B. McDonald, S. T. Elliott, J. W. Jones and F. S. Coates, members of the Executive Council. Mr. G. A. Fisher was unanimously re-elected Secretary. Financial statements submitted at the meeting showed that the Board had spent \$1,229.77 on advertising and publicity material during the year.

Speaking at the annual meeting of the Board of Trade, the retiring President, Mr. J. W. Jones, reviewed the rapid progress that had been made by the district during the year 1911, one of the chief contributory factors being the large expenditures made by irrigation companies, which he estimated at \$400,000 for the past year, including \$150,000 by the Kelowna Irrigation Co., \$150,000 by the Kelowna-Canadian Fruit Land Co. and \$100,000 by the South Kelowna Land Co. During 1912, these companies, he said, would likely spend another \$100,000 each. Trees planted in the Kelowna district during 1911 included 85,800 apples, 25,500 pears and 17,000 other kinds of fruit, making a total of 128,000, equal, at sixty trees per acre, to nearly 2,200 acres. The Central Okanagan Lands would plant about 76,000 trees during the coming season, and the Kelowna Land & Orchard Co. had 200,000 trees on order. Shipments of fruit and produce for 1911 totalled about 250 cars, of which the Farmers' Exchange handled 165. The cannery canned 923 1/2 tons of fruit and vegetables, distributed \$13,000 among the farmers and paid over \$14,000 in wages.

of improvements she would like to see done to Westbank. First, she had divided the members into committees to work together, north, south, east and west, those living nearest together to work together. Improvements discussed were: to tidy up the Cemetery, the Monument and Community Hall grounds, lighting the townsite at night, a life belt or buoy at the wharf, the buying of a canner to rent out. Committees were formed to look into all these matters.

Mrs. Howlett, assisted by Mesdames W. H. Hewlett, C. J. Tolhurst and A. H. Davidson, served an extra good tea.

(Items left over from last week)

On Friday, the Community Hall held a military bridge in the Hall. Ten tables were filled and a jolly evening was spent. The winners of the first prizes were Messrs. C. C. Clarke, W. Ingram, F. Jones, and J. Brown. A nice supper was served.

Games have gone ahead tremendously this winter and the Hall is rarely vacant. On Friday, the school uses the hall rent free for gymnastics. The younger boys are starting to re-organize and hope to form a Lone Scout Patrol and the Cubs will be active too.

This term the principal, Mr. F. B. Dickinson, has innovated a school paper which promises to be a success. The editor is Barney Browne, business manager and typist, Jacqueline Paynter; designer of cover and illustrator, Doris Paynter; corresponding editor, Dacey Browne. The parents appreciate this paper. Mr. Herbert, of Herbert's Business College, Kelowna, very kindly helped to copy the first edition.

The Men's Bridge Club met at the home of Mr. W. Ingram on Thursday night.

BENVOULIN

Worship at the United Church of Canada next Sunday, at 3 p.m. Rev. A. McMillan is giving a series of Lenten messages which should help the present day depression of affairs.
Church School at 2 p.m.

Missionary meeting next Tuesday, March 1st. Mrs. J. B. Fisher will take charge of the meeting at Mrs. Aleck's, 3 p.m.

At the Mission Creek School last Thursday evening, the Skookummoonie Club put on their first entertainment before a very appreciative audience. Every one was kept in a very happy mood from the beginning to the close of the performance. The young artists are to be congratulated and much applause was given them. Mrs. Gladys Reid has been very diligent these last few weeks in training the girls of the Club, and we congratulate her.

Mr. Rae Tucker is having more trouble with his sore hand, and an X-ray may have to be taken very soon.

Mr. W. Chamberlain is having his house wired this week for electric light all throughout, including the basement, also the barn.

Golf, says a doctor, is a bad game for those fatigued with brain work. Many men may have to give it up—the brain work, we mean.

TRENCH MORTARS FIGURE IN SHANGHAI FIGHTING

The Chinese soldier is engaged in loading a trench mortar, which appears of rather antiquated type. Weapons of this description are generally used when opposing armies are entrenched within a short distance of each other, and the shells or bombs are fired at a high angle so as to drop as perpendicularly as possible in the trenches of the enemy.

"BUILD B. C. PAYROLLS"

FAMED FOR ITS RICHNESS

Pacific Milk has won a rather enviable fame for its richness. We were first made acquainted with this far-flung and solid reputation from the letters. Then time, test, analysis and a large and growing patronage greatly deepened the impression.

Canadian National

CANADIAN FAILURES DECREASED LAST YEAR

(Dun's Review)

Insolvencies in the Dominion of Canada for the year 1931 were fewer in number than in 1930, while the liabilities last year show quite a reduction. As to a number of features, the 1931 report makes quite a favourable comparison with earlier years. There were, in all, 2,563 mercantile failures in Canada in 1931, with a total indebtedness amounting to \$52,987,554, against 2,741 similar defaults in the preceding year for \$57,191,493. The reduction in number for the year just closed of 178 is equivalent to 6.5 per cent. Last year was the first year since 1926 in which the number of insolvencies in Canada was less than in the preceding year. For every year since 1926, up to 1930, the number of such defaults has increased each year, and with one or two exceptions the liabilities have also been heavier. In 1926 there were 2,196 failures recorded, the increase for 1930 being 545, or 25 per cent. Not a single bank has failed in Canada for many years.

It was in the manufacturing division that the best showing was made for last year. The number of failures in manufacturing lines was fewer and the liabilities very much less in 1931 than in the preceding year. A reduction also appears in the number of trading defaults last year as compared with 1930, but the indebtedness shown for 1931 was almost as heavy as it was in 1930. As to the third class, which includes agents and brokers, the number for the two years was just the same, but the liabilities last year were very heavy, owing to the default of several large stock brokerage concerns.

As to the insolvencies by Provinces, Ontario and Quebec naturally led all the other geographical divisions. Nearly two-thirds of all business failures in Canada occurred in these two sections. In both of them the number of defaults last year was smaller than in 1930, much the heaviest reduction being in the Province of Quebec. As to the liabilities, the figures for both were practically the same in the two years. Those for Quebec were much larger than the Ontario indebtedness. Other Canadian Provinces showing fewer defaults the past year than in 1930 include British Columbia and Saskatchewan, and for both of them the reduction is quite large. Liabilities last year also were very much less in both of these Provinces than in the preceding year.

In the other Canadian political divisions there was an increase in the number of failures last year, as compared with the preceding year, and in most of them the indebtedness was heavier in 1931. This was the case with Manitoba. For Alberta there was an increase in the number of failures, but the liabilities were less.

Failures in Canada attained their peak in 1922, when bankruptcies reached a total of 3,695, with liabilities totalling \$78,068,959.

LAND REGISTRY ACT (Section 160)

IN THE MATTER OF NORTH 5 acres of Block 61, Map 262, City of Kelowna.
PROOF having been filed in my Office of the loss of Certificate of Title No. 22188A to the above mentioned lands in the name of E. R. Bailey and hearing date the 18th May, 1911, I HEREBY GIVE NOTICE of my intention at the expiration of one calendar month from the first publication hereof to issue to the said E. R. Bailey a provisional Certificate of Title in lieu of such lost certificate. Any person having any information with reference to such lost Certificate of Title is requested to communicate with the undersigned.

DATED at the Land Registry Office, Kamloops, B. C. this 17th day of February, 1932.
R. A. BRADEN, Registrar.
Seal of Land Registry Office.
Date of first publication, 25th February, 1932.

KELOWNA VOLUNTEER RELIEF ASSOCIATION

Where To Send Donations Of Supplies Or Cash

Rev. A. K. McMinn, Chairman, has charge of the purchasing of groceries, fuel and clothing.
Mr. A. A. Ballard is Secretary-Treasurer. All donations in cash should be sent to him, and will be acknowledged by him through the medium of the press.
Mrs. H. W. Arbuckle is Convener of the Committee on Clothing. All donations of clothing should be sent to the old wooden school, Richter Street.
Mr. H. A. Willis is Convener of the Committee on Produce. All contributions should be left at the warehouse of the B. C. Shippers.
Capt. Leighton, of the Salvation Army, is Convener of the Milk and Soup Committee.
Mrs. T. G. S. Chambers is Convener of the Committee for the Rutland district and the representative there of the Relief Association.
Mrs. J. B. Fisher is the representative of the Association for Benvenuto district.
The public are requested to work through the proper representatives of the Committee, so as to avoid overlapping, confusion and waste, and an earnest appeal is made to them to be as generous as possible with anything that they can spare which can be made of service to others who are in need of food, clothing and fuel.

RUTLAND

The whist, bridge and 500 party held by the Women's Institute on Tuesday last, in aid of the Kelowna Hospital, realized about \$15.00 clear. Frequent postponements affected the affair adversely, or this amount might have been increased considerably. A full complement of bridge tables was utilized, but the 500 only had enough supporters to fill two tables, while the whist was represented by one lone table. Refreshments were plentiful and at the close Mr. J. R. Beale auctioned off a number of the cakes that remained. Prizes were presented to the following: bridge, ladies, first, Mrs. F. L. Irwin; gentlemen, first, Mr. F. L. Irwin; consolation, Mrs. J. Ansell. 500, ladies, first, Miss Baldock; gentlemen, first, Mr. R. B. McLeod; consolation, Mrs. Geo. Mugford. Whist: first, Mr. P. Neave; second, Mr. J. F. Hawkey; consolation, Mr. A. Money.

The regular meeting of the Farmers' Institute was held in the Community Hall on Wednesday evening last, with about thirty-five growers in attendance. The main subject for discussion was the question of bulk shipment of apples. One speaker for each side of the case was arranged for, the subject being thrown open then for general discussion.

The first speaker was Mr. A. W. Gray, who attacked the system of bulk shipment and contended that the general effect had been to lower the selling price of all apples below cost of production. The grower saved nothing by bulk shipping, all the saving in reduced handling charges and lower freight rates, etc., being taken from the selling price and handed to the buyer, none to the seller.

Mr. Joe Casorso was the champion of the bulk shipment, and, speaking from his actual experiences on the prairies this past season, contended that the bulk movement had put large quantities of apples into consumption that would otherwise have been dumped, and that under present conditions on the prairie the farmers there could not afford to buy the boxed apples, but by bulk shipment were enabled to purchase in quantities which they otherwise would not.

In the general discussion that followed, very divergent views were presented, and the growers seemed evenly divided on the question. No resolution was passed for or against the question.

Mr. C. E. Atkin, of Glenmore, Director of the B. C. F. G. A. representing North Kelowna, gave a report of the recent convention in Vernon, dealing particularly with changes in the constitution of the Association, and urged all growers to unite in one body for the better control of their affairs and in order that their representations to provincial and federal parliaments might carry greater weight. A vote of thanks was extended the speaker at the close of his address.

Under the head of new business, resolutions were passed urging representatives from the fruit industry to attend the Imperial Economic Conference, and one asking farmer representation on the Board of Railway Commissioners.

The young people of the district held another "old time" dance in A. W. Gray's packing shed on Friday night last, Miss Peggy Bell being the hostess on this occasion. The affair was kept going until the early hours, everyone having a very enjoyable time.

The 1st Rutland Troop entertained the Kelowna Scouts in the Community

SKATERS EXCHANGE FELICITATIONS

Miss Jean Wilson (right), of Canada, winner of the 500-metre winter Olympic speed skating final event, and Miss Elizabeth Dubois, of Illinois, a member of the United States team, who finished third, photographed after the race at Lake Placid, New York. Miss Wilson covered the distance in the fast time of 59 seconds.

LETTERS TO THE EDITOR

PRAISE FOR PICTURE "ALEXANDER HAMILTON"

First United Church, Kelowna, Feb. 23, 1932.

To the Editor,
The Kelowna Courier.

Sir,
I regard it as a personal and a public duty to express in this way my appreciation of the film that was screened at the local theatre on Friday and Saturday last, and to compliment the local management, or The Famous Players, or both for giving to the Kelowna people a film of such a high order as George Arliss in "Alexander Hamilton." It is not my intention nor is it in my province to offer even constructive criticism of the historicity of the play or the technique of staging or filming; I merely wish to voice what I felt about it as a citizen. It was interesting historically and valuable educationally; it presented a strong statesmanship and a wholesome patriotism; and it displayed an inspiring and challenging moral idealism and was entertaining in the highest and finest sense. The comic and the other accompaniments of the main picture were on a plane that enhanced rather than hindered its enjoyment, and there were no unpleasant elements in the whole programme, which therefore made a very profitable evening of entertainment to all who were able to take advantage of it.

The number present at the show and the comments on all sides indicate how much the Kelowna people appreciate a programme of that quality. It is my hope that the management will be encouraged to give us more entertainments of a like high quality.

Thanking you for your courtesy and the use of your space, I am,
Sincerely yours,
A. K. McMINN.

SMALL BUT SPEEDY

A speed of two miles a minute in this tiny bus is the objective of George Eysten, who will make an attempt to lower the baby car speed record at Pendine Sands, England. The car is so small that part of the body has to be removed to allow him to get into the cockpit.

MEDICAL MISSIONARY EFFORT IN INDIA

Inspiring Address In First United Church By Dr. Margaret McKellar

(Contributed)

The members of First United Church and citizens of Kelowna were privileged to listen on Sunday evening last to a most profitable and inspiring missionary address by Dr. Margaret McKellar, for forty years a medical missionary in India.

A woman of gracious dignity and modest mien, Dr. McKellar appeared in the pulpit wearing the insignia of honours earned by her during long years of indefatigable labour and service. In her profession, she claims the rare distinction of being one of the two persons upon whom Queen's University, Kingston, has conferred the degree of LL.D.

Speaking upon the mandate of Our Lord, "Go ye into all the world and preach the gospel to every creature," she pointed out that, should an earthly monarch issue a proclamation to be made known to every person in the world, it would be possible to accomplish such a task within thirteen months. After 1932 years, the marching orders of the Christ are still unfulfilled. She stressed the universality of the teachings of Christ as related in the story of the good Samaritan. A similar spirit has been displayed at the recent Student Volunteer Convention in Buffalo, at which there were in attendance 2,300 young men and women from 17 to 25 years of age, convened for the purpose of deciding upon their life work as related to the extension of the Kingdom of Jesus Christ over the whole world. At this convention, there spoke a woman who had been in jail in Korea; a woman from India also spoke, and one from China. Women especially owe their freedom and emancipation to the teachings of the Christian religion.

Dr. McKellar defined the organization known as "The Women's Missionary Society" as a crusade of "Women who love in the service of women who suffer." Though it was a woman whom Christ commissioned first after his resurrection to go into all the world and preach, there are still in the United Church of Canada 400,000 women who do not belong to The Women's Missionary Society. The power that obtains in the Christian religion is due to the fact of the resurrection of the Christ. No Mohammed or Buddha, Confucius or Zoroaster has come back from death to prove the reality and persistence of life beyond the grave.

Dr. McKellar recalled how that the work of the Anglican Mission in the Vale of Kashmir had been very difficult and of very little avail due to lack of medical skill among the missionaries. Dr. Elmsley, a Scottish Presbyterian medical missionary, went in and opened up a little practice on a verandah, and it was not many years before a hospital was built in that district. At the Missionary Council held in Edinburgh, thirteen or fourteen years ago, there was no place in its programme for medical missions, but at the Council held in Jerusalem three years ago, great prominence was given to the work of medical missions. "Inasmuch as ye have done it unto one of the least of these, my brethren, ye have done it unto me."

What has the British Government done to advance the cause of medicine in India? There were no doctors sent out with the East India Co. when it was organized. The branches of the company at Madras and Bombay petitioned for hospitals for many years but they received no response. At present, however, there are seven medical colleges in India, 3,500 hospitals and dispensaries, and a record of 38,000,000 patients treated in one year. In 1890, there were no hospitals and only one small dispensary. Due to the persistent efforts of Drs. Beatty and Oliver, both graduates of Queens, five of these hospitals, fairly well equipped, are in existence today.

Dr. McKellar's hospital is situated in Neemuch, in Central India. Outsiders have equipped the operating needs. The building is of imposing grey stone with a marble floor in the operating room. A large motto stands in the building, "We wash the wounds and God heals them." In three languages, so that it may be read by Britisher, Hindu or Mohammedan, is inscribed the text, "Come unto me, all ye that labour and are heavy laden, and I will give you rest." The hospital was made available for the use of the families of British Army officers, and they have been glad to pay well for the services rendered.

In closing, Dr. McKellar pointed out that among the women of India are many doctors, lawyers, poets, and teachers, and it behooves the Christian women of America to read the reports of the work abroad as given in the Blue Book, and to arouse an intelligent interest in the onward movement of a no-longer backward race.

FED EGGS BACK TO HENS

Recent weather in western Canada has had a disturbing influence on the poultry industry. The mild spell on the prairies before Christmas kept the hens laying and depressed the price of eggs.

CHOCOLATE CUP CAKES

3/4 cup shortening 2 eggs
1 cup sugar
3/4 cup milk
2 cups pastry flour (or 1 1/4 cups bread flour)
2 teaspoons Magic Baking Powder
3/4 teaspoon salt
1 teaspoon vanilla extract
2/3 squares unsweetened chocolate

Cream shortening; add sugar slowly; add well-beaten egg yolks. Sift dry ingredients together and add, alternately with milk, to first mixture. Add vanilla and melted chocolate; fold in egg whites beaten stiff. Put into greased muffin tin and bake in moderate oven at 375° F. about 25 minutes. Cover with chocolate icing.

Why Miss Lillian Loughton's Chocolate Cup Cakes are famous

"I use Magic Baking Powder," says Miss Lillian Loughton, Dietitian and Cookery Expert of the Canadian Magazine.

"My successful baking results are due in large part to its freshness, uniformity, and consistent high quality."

"My own recipes are planned for Magic, and I recommend it for all recipes calling for baking powder."

Miss Loughton's high praise confirms the judgment of other Canadian dietitians and cookery experts. The majority of them use Magic exclusively, because it gives consistently better baking results.

Magic is first choice of Canadian housewives, too. It outsells all other baking powders combined.

FREE COOK BOOK—When you bake at home, then use Magic Cook Book will give you dozens of recipes for delicious baked foods. Write to Standard Brands Ltd., Fraser Ave. & Liberty St., Toronto, Ont.

Last week the progress in the work of having the Summerland Experimental Station supplied with water by pumping was marked by two forward steps. Mr. D. K. Penfold, Water Rights Department Engineer, of Kelowna, met the Reeve of Summerland to discuss this year's operation of Trout Creek, the first step, and the second step was the action taken by Mr. W. M. Fleming, Acting Superintendent of the Station, who wrote the departmental officials at Ottawa supporting the installation of a pump. The municipality has also written to Mr. Grote Stirling, M.P.

Good-night Speeches—then and now—"You must wake and call me early, mother dear." That was often said to mothers by the girls of yesteryear; but the girls now tell their mothers, as they start out for a spin: "You must wake up early, mother; someone's got to let me in."

During the recent cold snap on the Coast hens ceased laying. The consequence has been a wholesale marketing of laying hens, especially Leghorns, as there is little demand for the smaller sized eggs. One breeder in the Fraser Valley received such poor prices for his peewee eggs that he has been feeding them back to the fowls again.

SPORT ITEMS

BASKETBALL

Kelowna Wins Homeric Struggle With Wenatchee

Kelowna fans were treated to the finest brand of ball ever to be played on the local floor on Monday evening, when the Wenatchee Y.M.C.A. team connected with local seniors for a wonderful exhibition of basketball. The hall was practically filled, there being the best crowd on hand so far this season. The game was a thriller from the first whistle till the final gun, at no time during the game there being more than a few points advantage to either team. Wenatchee had a lead of six points about half way through the first half, this being the largest lead either team were able to get during the entire game. The half-time score read 21-20 in the U.S. team's favour. The final gun sounded leaving the Orchard City on top—and what a top!—by the score 37-35.

The final minutes were nerve breakers, and with three minutes to go Kel-

owna called time out, Wenatchee having a two-point advantage at this time. Both teams were playing clever and heady ball and both were trying to get another marker. Suddenly, with only two minutes left for play, Pettman heaved a beautiful long shot clean through the hoop to tie the score at 35-35. After this it was just a battle for the ball and the net. Again, with about three seconds to go, Pettman repeated his previous shot to win the game and send the crowd into hysterics of joy.

The Wenatchee bunch are a wonderful team—there is no question about it. Their passing and combination plays were almost perfect, and from the stand point of floor playing and generalship they were the superior team. Lee was the man all eyes were focused on, he being the big "darker" player—and a marvellous player he was. W. Mustell, the tricky captain of the Washington team, was nearly a team in himself. He was all over the floor and kept Poole, the local busy watching him. The Wenatchee quintette are a real team. Every man was good and real good. They are very fine sportsmen. It was a hard game to lose, and they were a wonderful lot of losers.

The locals must not be forgotten—every man played exceptionally well. They had to or it would have been a different story. Johnson played the game of his career, he having a hard man to check in Lee, and he gathered twelve points to lead the scorers. Parkinson and Poole played very fine ball at guard. They had their hands full and they did remarkably well. Pettman was the hero of the night when he sank the last two shots of the game, first to tie the score and then to make the winner. Both teams were about even on foul shots. Wenatchee counted five out of nine and Kelowna five out of eleven tries. It was a treat to have the refereeing so capably handled by our old friend "Dick" Parkinson, and it was great to see him "tooting" the whistle again.

Even Breaks In The Preliminaries

The first of the play-off games got away as preliminaries when the local Intermediate B and Senior B ladies tackled the Pentiction entries in divisions. Kelowna were successful in gaining a five point margin in the boys' game but were unsuccessful in the ladies' game.

Intermediates Well Matched

The Intermediate game was a good game with both teams evenly matched, and Kelowna had to work hard to get out winners 21-16. The locals were down 5-11 at half time but came back strong in the second half to win. The locals should have had a larger advantage but they were inclined to be over-anxious and excited, consequently they missed several chances of scoring. Their passing was not as good as it could have been, but the team should hold their own at Pentiction because they have gained some much needed experience. Gibbs and Miller were outstanding for Pentiction, these two boys playing very effective ball. The Pentiction team were much less excited than the locals and consequently took advantage of this.

The ladies' game was rather a disappointment, at least from a local viewpoint. The girls were sadly outclassed but they worked very hard. Pentiction have a very good team and should go through to the B. C. championship with little difficulty. Rene Harris was the outstanding player of the game, but she was well supported by C. Men and E. Meldrum. The Kelowna team seemed to work hard yet could not get anywhere, but one player deserves special mention, Gertrude McDonald, who played the best game she ever played and was the hardest working player on the floor. The final score was 42-10.

These two teams, viz., Intermediate B Boys and Senior Ladies, play the second game at Pentiction Saturday night. The B's have a big task to hold their five point advantage, but they can do it and will work every inch of the field to do so. The girls have a very difficult task, but who knows? The unexpected has happened—occasionally.

Band Music

The crowd were entertained with selections by the City Band which added flavour to the evening's entertainment. It was very good of the Band to give their services and they were very much appreciated.

Wrestling Bout Adds Variety

Something of a new stunt was pulled during the half-time period in the second game, when an exhibition wrestling match was put on to entertain the customers by Len Hill and Max Oakes. They gave a fine exhibition for two local boys, and the crowd was very appreciative and gave them a big hand after the gong sounded. Good work, keep it up!

Big Game Opens With Rush

The feature game opened very fast with both teams feeling each other out. W. Mustell opened the scoring when he counted a free shot when Johnson fouled him. The latter, however, came right back from the tip-off and counted the first field goal of the evening. Spencer fouled Griffith, who converted, but Johnson failed after Lee had fouled him. The game was lightning fast, and both teams appeared to be evenly matched. Johnson counted from close in to put the locals ahead 5-3, but Wickline did the same for the U.S. boys, as also did R. Mustell, to again put the visitors ahead. Griffith counted on a shot from the ring, but W. Mustell did likewise to keep his team ahead. Kelowna called time out with six minutes gone. Wenatchee had a slight advantage in play and were giving a very fine exhibition of ball handling. Griffith fouled Spencer, who failed to count on his free shot. Pettman sank one of his long ones to even matters again, but Lee got into the scoring when he made sure from close in. Lewis took Johnson's place and Griffith moved to centre. Pettman again counted, this time on a beautiful one-hand shot, to make the score 11-11, with eight minutes left to play in the first half. Wenatchee called time out to talk things over. It was a good talk, for they started a rally which netted them six points, without a reply from the locals. K. Mustell counted from close in when he got a throw-in pass from the end. Wickline made a nice shot from well out, and Lee did the same on a beautiful long

shot from centre. The score now was 17-11 in Wenatchee's favour. This was the greatest advantage of the entire game. Lewis reduced the southerners' lead when he made sure from underneath the net. Johnson returned to the line-up and Griffith came off. Parkinson counted on one of his specials but W. Mustell also made a nice side shot to keep things at 19-15. Johnson made sure from in front of the net and Poole added another point when he counted off a double foul to make the score 19-18 for Wenatchee. Johnson again made a nice shot to put the locals ahead, but K. Mustell found the net just as the half-time whistle went to leave Wenatchee ahead 21-20.

After the interval Lewis sent the orange and black ahead when he counted after ten seconds of play. Play ranged back and forth at a terrific pace, Kelowna holding a two point lead for a short time, but Lee counted a free shot when Lewis fouled to tie the score at 27-27. Johnson sent the locals ahead again when he counted from underneath. Holland replaced Lee and Wickline went to centre for Wenatchee. Griffith went in for Lewis. Holland counted on a beautiful shot from the side. W. Mustell counted a free shot, but Griffith counted a long heave to send the locals ahead again. 31-30. Poole added another point when he was fouled by W. Mustell. How went in for Spencer and at once made a long shot to even things again, 32-32. K. Mustell made sure from underneath and each team counted a free shot when Griffith and How both made fouls and each counted.

The Hurricane Finish

Three minutes left for play and Wenatchee were ahead 35-33. Kelowna called time out. Meikle went in for Johnson and Griffith went to centre. Speed and thrills and great basketball—each team working as hard as they could. Pettman sank a peach of a shot from away out with only two minutes left for play to tie up things again. The crowd were wild—and how! Then came the noise. With about three seconds left, Pettman heaved the hoop to bring down the house and win the game. What a game! Was it a game? Ask anyone—they will tell you.

Teams and scores:—

WENATCHEE Y.M.C.A.: Wickline, 7; Holland, 2; W. Mustell, 8; Lee, 5; K. Mustell, 10; Spencer; Howe, 3. Total, 35.

KELOWNA SENIORS: C. Pettman, 10; M. Meikle; K. Griffith, 6; H. Pettman; H. Johnson, 12; J. Parkinson, 2; D. Poole, 2; G. Meikle; V. D. Lewis, 5. Total, 37.

PENTICTON SENIOR LADIES: E. Meldrum, 10; J. Mar, 4; M. Campbell, 6; M. Meldrum, 8; R. Harris, 14; C. Peterson, 8; Z. Batchelor; L. Nagle; T. Nagle. Total, 42.

KELOWNA SENIOR LADIES: G. McDonald, 4; I. Conway; F. McCarthy; J. McDonald; B. Carruthers, 6; A. Hughes; D. Leathley; J. Chapman. Total, 10.

PENTICTON INTERMEDIATE B Boys: Meldrum, 3; Woodward; Parkinson; Gibbs, 6; Miller, 6; Thom; Rund, 1; Hansen; Dewdney. Total, 16.

KELOWNA INTERMEDIATE B Boys: Hill, 6; McLaren; McKay, 8; Cherry; Ryan, 7; Poole; Oakes; Daynard. Total, 21.

VOLLEYBALL

Blue Birds Proving A Surprise

The Blue Birds, the latest comers in the volleyball field, are fast becoming the surprise of the season. Taking over the Teachers' position at the tail end of the league, although not having broken into the win column yet, they have taken games from the Gyros and K.G.E., which, considering that they have never played before, is going some, and if they will stick together, they will be heard from next season.

There are only a few more games to be played to finish out the third round, as will be seen by the league standing, a lot will depend on Friday night's games. If the Business Men can win their two games, one against the I.O.O.F. and the other against the K.G.E., it will consolidate their position at the top of the league, but should they slip in either one, it will tie them up with the K.G.E.

On Thursday, February 25th, the long postponed challenge game for the Bennett Cup, emblematic of the volleyball championship of the Okanagan Valley, now held by the Business Men of Kelowna, will be played with the K.G.E. as the challengers, and in view of the ending of these teams in the local league, should prove very interesting. This game will be played at 9 p.m. Incidentally, in winning the Bennett Cup, the Business Men have won themselves into a flock of games to hold it, for if they can dispose of the K.G.E., there are three challenges from Vernon to be taken care of.

League Standing	Played	Won	Lost
Business Men	14	13	1
K.G.E.	15	13	2
Gyros	14	9	5
I.O.O.F.	14	6	8
Church	14	4	10
Blue Birds	15	1	14

JUST CHATTER

(By ex-Kelownian)

The Adanacs-Shores Game

The V.A.C. was crowded to almost overflowing to see the return game between the Adanacs and the Shores. Shores came with the confidence of a game won behind them, and the Adanacs came determined to even the count. Extra chairs had to be carried in and a number of old timers were there. Stan, Meadows and Graham Bruce, Dodge Tuck and a number of others who have followed basketball before some of the players on the floor that night were able to toddle, sat entire. We had the fortune to sit in front of a real Irishman, who kept us in fits of laughter at his witty sallies.

In the preliminaries, the Senior B squads did their stuff. The first "Y" team of Vancouver sprang something of a surprise in nosing out Province. The "Y" started off in great style, and had the Province buffaloed. The score ran up to 13-1 but the newbies came back strongly in the second half and it

INTERIOR BASKETBALL PLAYOFFS

The following is the official schedule of Interior playoffs:

Senior B Men (Four Entries)

Quesnel and Kamloops will play "sudden death" game on Kamloops floor on Saturday, March 5th. In the event of Quesnel winning against Kamloops, Kelowna will play them on Saturday, March 7th, on either Kamloops or Kelowna floor. If Kamloops wins against Quesnel, Kelowna will travel to Kamloops Wednesday, March 9th, and Kamloops will play return game in Kelowna on Saturday, March 12th. The winner will play in Trail, either a sudden death game on Saturday, March 19th, or a two-game series on Saturday and Monday, March 19th and 21st.

Senior B Ladies (Three Entries)

Pentiction won at Kelowna on Monday, February 22nd. The return game will be played at Pentiction on Saturday, February 27th. Winners of the Pentiction-Kelowna series will play at Trail in Interior championship on Saturday, March 12th.

Intermediate A Boys (Three Entries)

Vernon will play at Pentiction on Saturday, March 5th, and Pentiction at Vernon on Tuesday, March 8th. Winners of series to receive Revelstoke on Friday, March 11th, and to travel to Revelstoke for Interior final on Saturday, March 19th.

Intermediate A Girls (Four Entries)

Ashtcroft and Salmon Arm will play sudden death game in Kamloops on Saturday, February 27th. Winner to travel to Kamloops for second game on Wednesday, March 9th. Winners of series to meet Vernon in final by Saturday, March 19th.

Intermediate B Boys (Six Entries)

Vernon will play at Rutland on Monday, February 29th, and Rutland at Vernon on Tuesday, March 8th. Kelowna won from Pentiction at Kelowna on Monday, February 22nd, and will play at Pentiction on Saturday, February 27th. Quesnel defaulted in fixture with Salmon Arm. Dates of semi-finals and final still to be set. If at all possible, Interior winners basketball game with Quesnel during the Easter holidays.

Intermediate B Girls (Two Entries)

Salmon Arm and Kelowna United Church. Date set yet. Clubs can arrange satisfactory dates to suit themselves.

Junior Boys (Two Entries)

Vernon and Kelowna United Church. No date set yet. Clubs can arrange their own dates, if desired.

Senior C Men (Eight Entries)

Princeton at Merritt; Saturday, February 27th; Merritt at Princeton, Saturday, March 5th.

Salmon Arm at Kamloops, Saturday, February 27th; Kamloops at Salmon Arm, Friday, March 4th.

Glenmore at Armstrong, Saturday, March 5th; Armstrong at Glenmore, no date set yet.

Kelowna at Rutland, Monday, February 29th; Rutland at Kelowna, no date set yet.

Second round to be completed by Wednesday, March 16th. Final to be completed by Saturday, March 26th.

was a lucky thing for the triangle men that they had an early lead, for they were outscored in the second period. Bill Chater was on the "Y" team, but his phrase in regard to basketball of old. He did not seem to be at home in the new style of play. At that he did some nice work and scored one particularly neat basket from underneath, having sneaked behind the guards. Young McIntyre was the referee and was easily seen that he was a cousin of Bus. Taggart's. There is a striking resemblance. In the second game the second Y team were eliminated by loco. loco play a fast aggressive game, and they have an exceptionally tall centre, but he is the key man and the team that stops him will have the loco team smothered.

The big game was somewhat of a disappointment to many. The Shores failed to come through with the dash that has marked their play in their games, and they allowed the wily Adanacs to force their style of play.

Had the Shores gone right after the Adanacs and used a short quick passing game, a game they can play, they would in all likelihood have stepped off the floor winners, but the Adanacs played a stall and dash game, and the Shores allowed them to do so. It was evident to practically all the spectators that the Adanacs were in physical distress early in the game. The Shores were off in their shooting, and Purves was well watched by Shiles—perhaps we should say the Adanacs on the other hand played the best ball they have played this year. They realized it was a desperate situation, and Harvey McIntyre was the big noise. He has not played such a game in years, and was responsible for much of the damage. It was his rushing and activity that counted against the slow moving Adanacs. Mark you, the Adanacs are the most wily team on the circuit today. What the spectators around us, and they were all experienced players of many years, could not understand was how the Adanacs got away with so much stuff under the basket. It is almost safe to say that every time d'Easum, Shiles and Wikie were after a man under the basket, they fouled. Some of this was clever, and perhaps hard for the referee to see, but some were sheer wide open glaring violations. It was perfectly apparent to everyone around where the writer sat. However, Adanacs played their best game this season and won handily. Now the series is all tied up again, and with three games to play, it is any one's privilege and opportunity.

Intermediates Not Up To Standard

We watched an intermediate play-off of the Sunday School and neither team played up to standard. Chalmers defeated Dunbar, (each champions of their divisions) but the game was an impressive showing, perhaps due to nerves. Dunbar on Saturday turned the tables and beat Chalmers, making a third game necessary. Grandview Chums, (Int. A.) is a team to watch. They took the much touted Waterfront team to the mat, and play a fast, tricky game. There is some fine basketball

GOLF CLUB SEEKS TO ENLARGE MEMBERSHIP

(Continued from Page 1)

Crawford Cup: Mrs. Willis and Mrs. Collett.

Captain's Cup: Mrs. W. Pettigrew. Maclaren Cup: Helen Bryce.

Monthly Medal Round winners were: Mrs. Bryce, Mrs. Shepherd, Mrs. H. V. Craig, Mrs. Maclaren, Mrs. J. D. Pettigrew.

Mrs. J. D. Pettigrew, Captain of the ladies' section of the club, called upon to speak, remarked that the ladies had held their annual meeting in the previous week. Referring to teas for the coming season, she said that the ladies were in favour of having a stewardess at the club house. They were, however, awaiting the decision of the club in the matter.

Suspension Of Entrance Fee

The resolution contained in the notice of meeting was read by the Secretary as follows: "That the entrance fee for regular members be suspended until the 15th day of April, 1932, or, in the alternative, until fifty new regular members have been enrolled."

Speaking to the resolution, which had been drafted by the Committee, Mr. Claridge said that the object was to make it as easy as possible for new members to join in order to enlarge the membership. Under the proposal, new members could get in for an initial payment of \$10; the first instalment of the subscription fee.

Mr. H. V. Craig caused some amusement by declaring solemnly that he was not prepared to oppose or support the motion, nor would he move an amendment. In view of the fact that a considerable concession was offered to new members some penalty should be imposed upon them. "It should be made a condition," he averred, "that they pass a very stiff examination in the rules of golf."

In reply to Mr. A. A. Ballard, who asked why old members who dropped out could not be re-admitted for a small consideration, Mr. Quinn replied that they might lose a number of members this year if such a plan was followed.

Mr. F. J. Willis made a proposal that met with the approval of a number of those present. He suggested that a moratorium on the entrance fee be declared for this year. Then, if conditions improved, new members joining this year could be asked to pay the entrance fee in 1933. This was tried out in Saskatoon during the war years and proved successful.

being played in Intermediate A divisions this year. Senior B is not so hot, but should be very strong next year. Whoever wins the mainland series should have a real hurdle in Victoria. Victoria almost upset the Varsity last year, and but for Kelowna's own P. Campbell, the Varsity would not be Canadian champs today. It was P's great going in that game that turned the tables, when things looked decidedly black for Vancouver in sunny Victoria.

Before this proposal was put to the meeting in the form of a resolution, Mr. Currell moved an amendment to the resolution submitted by the Committee. His amendment, seconded by Mr. Craig and subsequently carried, was to the effect that the entrance fee be suspended until May 15th, 1932, for regular members.

Capt. Hayman incorporated Mr. Willis' suggestion in an amendment to the amendment, which failed to carry by two votes, after which Mr. Currell's amendment carried.

New business being the next item on the agenda, Mrs. Craig asked if the bunker on the seventeenth green could not be filled in, to which the chairman replied that the Grounds Committee would attend to that this year.

When the matter of altering and improving the club house was broached by Mr. Currell, who felt that improvements were necessary, the question of financing this work was raised. It was pointed out that the club was under obligation to redeem \$300 of its bond issue in 1932. Some members favoured not meeting the obligation this year, while others were of the opinion that the bonds should be retired in accordance with their decision of 1929 to retire bonds to the value of \$200 or \$300 yearly. It was finally decided that the obligation should be met in part, and a motion was put and carried providing for the retirement of not less than one bond.

The matter of enlarging the club premises, in addition to that of providing quarters for Mr. Owen, the professional, and his wife, was finally left in the hands of the Committee. The Committee will get in touch with Mr. Owen to see if arrangements can be made for him and Mrs. Owen to take up residence at the club house, Mrs. Owen to serve teas in place of a ladies committee, which will carry on meanwhile. Another proposal which the Committee has in mind in the inauguration of a

winter club at the golf course, where tobogganing, skiing and skating could be enjoyed. This could be operated in conjunction with the golf club, the suggested subscription being \$3 for club members and \$5 for those not belonging to the club. This matter will be further considered by the new Committee.

Dr. W. J. Knox stated that the convention of the B. C. Medical Association would be held in Kelowna on May 27th and 28th, and he asked that the course be thrown open to the delegates on those days, waiving green fees. This had been done in Winnipeg and other centres by the various golf clubs. There would be between four and five hundred people in the party, he said.

The chairman replied that green fees had always been imposed in such cases but that the Committee would give the request careful consideration.

Mr. Barton remarked that, as the Board of Trade received a grant from the City Council for entertainment purposes, the Board might consider reimbursing the Golf Club to the amount of the green fees.

Mr. Craig suggested that a reduction in green fees might bring in greater revenue, but the chairman felt that there was no complaint in that regard as the fees were not excessive.

After debating the advisability of having the tree on the right side of the eighteenth hole removed, it was finally decided to cut down the half-dead tree on the left hand side.

On motion, Mr. F. E. R. Wollaston, Coldstream, was made an honorary member.

Regret of the Committee in the loss during the year 1931 of two life members and one playing member was expressed by the chairman.

Votes of thanks were extended to the retiring President and the outgoing Committee, to the Grounds Committee and to the press, after which the meeting adjourned.

THE HAPPY WAY TO THRIFT

SHREDDED WHEAT

TWO BISCUITS WITH MILK MAKE

A COMPLETE SATISFYING MEAL
Made in Canada with Canadian Wheat
THE CANADIAN SHREDDED WHEAT COMPANY, LTD.

Especially Smart for MILADY'S WARDROBE

AN EFFECTIVE COMBINATION OF HEATHERKNIT AND PARCHMENT CLOTH

That Pullover! New—different—with its contrasting colours running diagonally. This is made of our celebrated silk and wool Parchment Cloth that does not sag. The colour contrast of the pullover is carried out in the Heatherknit cardigan and flared skirt. Lovely colours. Sizes 16, 18 and 20. Four-piece Ensembles \$16.95

YES, IT'S TRELLAGE (WOOL LACE) BUT IT'S DIFFERENT

It is effectively carried out in this stunning "better" frock—suitable for the less informal occasions as well as business. The striking contrast of dark and light makes it so distinctive. The silhouette is accentuated by a smartly ringed belt and flared skirt. The draped neckline is emphasized by a loosely-looped bow which can readily be adjusted to suit the individual taste of the wearer. A slip is an added attraction and included in the price of this dress. Sizes 14 to 42. Price \$12.50

Other new numbers in silks at \$7.50, \$9.95 and \$12.50.
